INTRODUCTION

1. PURPOSE

This Illustrated Parts Catalog (IPC) has been prepared by Cirrus Design Technical Publications as an aid to operators and mechanics in identifying and procuring replacement parts for the Cirrus Design SR20 airplane. Information in this catalog covers the airplane and its options as delivered from the factory or as modified by Cirrus Design Service Bulletins. Information contained within this catalog does not authorize or provide authority to perform airplane modifications.

Note: When part effectivities are conditional to alterations performed on the airplane, such as Service Bulletins or installation of Supplemental Type Certificates, the airplane logbook should be checked to ensure the proper replacement parts are obtained.

Part information for Supplemental Type Certificates (STC) installed on the airplane are not included in this publication. For part information related to any STC installation, refer to the STC's Instructions for Continued Airworthiness.

A. Level of Coverage

The parts lists in this IPC contain all parts comprising this airplane except those parts that are attached by bonding or riveting. Bonded, and riveted parts are included when the part is considered normally replaceable.

The level of detail (breakdown) covered is to the Line Replaceable Unit (LRU) level.That is, coverage and breakdown in this IPC includes removal of components from the airplane but does not include bench disassembly of the components. Disassembly, inspection, test, and reassembly of components on a bench is beyond the scope of this manual and, where necessary, will be covered in appropriate overhaul manuals.

B. Illustrated Parts Catalog Numbering System

The content of this catalog is arranged and presented in the same Aircraft Group, Chapter, and Section arrangement as appears in the Airplane Maintenance Manual (AMM). Therefore, the user can usually expect to find coverage of items in the AMM in the same Chapter/Section of the IPC.

The numbering system employed in this catalog is composed of a six-digit number containing three elements. Each element consists of two digits as shown in the following example.

First Element		Second Element		Third Element
Chapter		Section		Figure
XX	-	XX	-	XX

C. Abbreviations

The following abbreviations have been used throughout this catalog:

ALT - Alternate	EXHTD - Exhausted	NP - Not Procurable
AR - As Required	FUS STA - Fuselage Station	P/N - Part Number
ASSY - Assembly	FWD - Forward	REF or RF- Reference
BHD - Bulkhead	INSTL- Installation	RH - Right Hand
BL - Buttock Line	LH - Left hand	WS - Wing Station
DET - Detail	NHA - Next Higher Assy	G3 - Redesigned Wing

2. USING THE ILLUSTRATED PARTS CATALOG

The following information provides detailed guidance on using the SR20 Illustrated Parts Catalog. Familiarization with this information will help ensure the correct part is ordered for the proper aircraft configuration through a clear understanding of the various configurations and options that are, or have been installed on the aircraft.

NO PIC	ITEM	PART NUMBER	SYMBOL	ATTACH 12345678	NOMENCLATURE	EFFECTIVE FROM	EFFECTIVE TO	UNITS

A. NO PIC: Illustration Coverage

A dash in this column indicates the component is not pictorially covered. Typically this is because some IPC illustrations show the most recent configuration and the dashed component is no longer a current production part. Because Item 1 of all IPC Figures calls out the Installation, this item is dashed to avoid confusion on multi-sheet illustrations.

B. ITEM: Indentured List Item and Illustration Call-Out Number

The Item number and corresponding illustration call-out number is shown in this column. Item numbers in the 400 range are not part of the Figure Assembly/Installation. A detail reference to the appropriate IPC Chapter-Section-Figure, i.e. RF 34-10-01 DET, will be listed in the Part Number column.

When using Cirrus Design electronic publications, illustration call-outs and indentured list numbers are hyperlinked to facilitate more efficient page navigation. Hovering over the illustration call-out will display the item's part number and name.

C. PART NUMBER: Part Number

The component's part number is listed in this column. At the installation level this column identifies the IPC Figure Number. If the indenture list is broken into block effectivities, i.e. configurations grouped together within one Figure, NO PART NUMBER will be called out at the top level of each effectivity block. In the case where a component assembly (X) is not available at the piece part level, the item(s) not available for separate purchase will be noted with PRT OF ITEM X. For items that are not part of the Figure, this column will show a 400-series number with a detail reference to the appropriate IPC Chapter-Section-Figure, i.e. RF 34-10-01 DET.

(1) Hardware Substitution List

A list of qualified interchangeable parts are listed in the Hardware Substitution List. This hardware is interchangeable in all applications. No other substitutions are allowed. Contact Cirrus Design Customer Support with questions regarding hardware substitutions.

D. SYMBOL: Symbol Notes

A symbol note is indicated by a symbol character to the right of the part number column. The corresponding symbol character and symbol note appear immediately below the parts listing. Symbol notes may require that additional data be supplied when a part is ordered, may indicate that there are configuration differences, may indicate that the part listed is a bulk item and a quantity must be specified, or any additional data about the part or component in the listing. Airplane serial effectivities may be limited by symbol notes.

E. ATTACH: Attaching Parts

Attaching parts for an assembly or component are shown at the same indent level as the assembly or component they attach and are distinguished from other items by an "A" immediately preceding the description of the assembly or component in the nomenclature column.

F. NOMENCLATURE: Part Name and Assembly Order

The relationship of component parts in an installation or assembly is determined by the degree of indenture in the nomenclature column as indicated below:

ATTACH	NOMENCLATURE
	12345678
	....
	INSTALLATION
	·DETAIL PARTS FOR INSTALLATION
	·ASSEMBLY
A	·ATTACHING PARTS FOR ASSEMBLY
	··DETAIL PARTS FOR ASSEMBLY
	··SUB ASSEMBLY
A	··ATTACHING PARTS FOR SUB ASSEMBLY
	···DETAIL PARTS FOR SUB ASSEMBLY

(1) Identical Parts: Left-Hand Right-Hand Assemblies

If two or more assemblies are made of a majority of identical parts, or the assemblies are mirror (reversed) images, as in the case of left-hand and right-hand parts, they are listed together in the nomenclature column. The detailed parts of each assembly are combined and listed together. All detail (indented) parts common to both assemblies are listed once with each part having a single item number. Parts not common to both assembles are noted “LH” or “RH” or other appropriate differentiating term. The quantity of parts listed under UNITS is for one assembly only.

(2) Nomenclature Notes

Notes referencing Service Bulletins, Spare Parts, and Alternate Parts are also included in the Nomenclature column. Refer to the Effectivity description for Nomenclature Notes and how they are applied.

G. EFFECTIVITY: Part Effectivity

Part effectivity is given by airplane serial number in Start (FROM) – Stop (TO) order in the Indentured List’s Effectivity columns.

(1) Standard Effectivity Break

Example:

EFFECTIVE	
FROM	TO
1005	1422
1423	

In the example above, the effectivity listing of “1005” “1422” “ “ indicates that the component is installed only on SR20 airplane serial numbers 1005 through 1422. A blank TO effectivity column in the next row is the equivalent of saying “component installed on SR20 serial number 1423, and on all subsequent serial numbers.

Note: For rows with a blank TO column, effectivity in this IPC ends as follows:

Model	End Effectivity
SR20	2338

(2) Split Effectivity Break

Example:

EFFECTIVE	
FROM	TO
1422	1472
1490	

In the event that an effectivity is split, i.e., not sequential, the effectivity will consist of one or more effectivity lines.

The example above indicates that the component is installed on:

- Airplane serial numbers 1422 through 1472,

not installed on:

- Airplane serial numbers 1473 thru 1489,

and resumed installation on:

- Airplane serial numbers 1490.

(3) Nomenclature Notes Affecting Effectivity

Service Bulletins - Installation of service bulletins are shown by notations in the nomenclature column. The term “Before SB2X-xx-xx” in the nomenclature column indicates that the part effectivity is as written in the effectivity column unless SB2X-xx-xx was installed. The term “After SB2X-xx-xx” in the nomenclature column indicates that the part effectivity is as written in the effectivity column when the airplane has been modified in accordance with SB2X-xx-xx.

Spares Notes - Spares notes in the nomenclature column may redirect the user to a part that was not installed at original manufacture for a replacement part. These notes will usually state, “FOR SPARES USE P/N 12345-xxx” or “WHEN EXHTD USE 12345-xxx.” The “FOR SPARES …” note requires that the noted part be used as a replacement for the original part. The “WHEN EXHTD …” note allows use of the noted part when stock of the original part is exhausted.

Alternate Parts - Alternate parts are those parts that may be used in place of another part. Where alternate parts are listed, the term “ALTERNATE FOR …” will appear in the nomenclature column. Normally, the next item listed will be the alternate part and it will have an “ALTERNATE FOR …” notation referencing the first part. Alternate parts have identical serial effectivities.

(4) Additional Effectivity Information

Effectivity is also indicated in the Effectivity Block in the bottom inside corner of each page and in the title block beneath the illustration. Effectivity may also be shown on details found on the face of the illustration.

H. UNITS: Units per Assembly

Units per Assembly is shown in this column. In some instances where number of units is not applicable, i.e. washer stackup, shims, dual lock, lock ties etc..., number of units is listed as AR, As Required. Non-Procurable items are noted with NP abbreviation.

(1) Identical Parts: Left-and Right-hand Assemblies

Parts not common to both assembles are noted “LH” or “RH” or other appropriate differentiating term. The quantity of parts listed under UNITS is for one assembly only.

3. SPECIAL CONDITIONS

Aircraft used for evaluating new systems before entering regular production can cause a break in the aircraft serial number range due to a system being installed as a “pilot”, the system being removed from the production line configuration, and the system later being reintroduced at configuration launch. Additionally, similar effectivity breaks can be caused by factory built aircraft used as company demonstrators and then later updated to conform to type design with a more current configuration.

In many instances these effectivity breaks can result in difficult-to-interpret indentured parts lists. To address this condition, a unique, Special Condition symbol note (**) is used throughout the IPC to identify affected IPC figures and aircraft serial numbers.

Example:

```
SYMBOL  ATTACH          NOMENCLATURE
                12345678
                ........
**      ENVIRONMENTAL CONTROL SYSTEM INSTALLATION
        ........ (PARTS LISTING)........
        ........ (PARTS LISTING)........
        ........ (END PARTS LISTING)....

        SYMBOL NOTES:
**      SEE SPECIAL CONDITIONS SECTION OF IPC INTRODUC-
        TION FOR DETAILED DESCRIPTIONS OF THE FOLLOWING:
        SERIAL NUMBER 1633; REFER TO SERIAL NUMBER 1886
        FOR PART IDENTIFICATION.
```

In the example above, Item 1, Environmental Control System Installation, has an associated Special Condition symbol note (**). The Symbol Notes section following the parts listing then describes the Special Condition with a reference to see the following Special Conditions table for a list of affected aircraft serial numbers and instruction on how to disposition the aircraft’s as-built configuration.

Serial Number	Special Condition	Disposition
1301	Aircraft installed with updated bulkhead 306.	Unless otherwise noted, refer to serial number 1307 for part identification.
1633	Aircraft installed with Environmental Control System with factory installed fan.	Unless otherwise noted, refer to serial number 1639 for part identification.
1878	Aircraft installed with G3 Wing and associated systems.	Unless otherwise noted, refer to serial number 1886 for part identification.
1907	Aircraft installed with Perspective Avionics and associated systems.	Unless otherwise noted, refer to serial number 2016 for part identification.
2058	Aircraft installed with Air Conditioning System. Aircraft installed with Oleo Strut.	Unless otherwise noted, refer to serial number 2065 for part identification.
2220	Aircraft installed with Lycoming Engine. Aircraft installed with Perspective+ Avionics.	Unless otherwise noted, refer to serial number 2339 in IPC P/N 12138-002 for part identification.

Figure IPC-Intro1: Special Conditions

A. Avionics Configuration

Airplane serial effectivities shown in the effectivity column may be further limited by the airplane's avionics configuration. Cirrus Design offers the SR20 with the avionic options listed in the table below; therefore, the effectivity column for a figure may also be limited by the installed avionics.

Standard avionics suites are available in the following configurations:

Serials 1005 through 1267:

Configuration A
Moving Map Display (ARNAV ICDS 2000 MFD)
Single-Axis Autopilot (S-Tec System 20)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
One IFR Approach-Certified GPS (Garmin GNS 430) and One VFR GPS (Garmin GNC 250XL)
Two VHF Communications (Garmin GNS 430 and Garmin GNC 250XL)
Single Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (*Serials 1005 thru 1099:* Garmin GTX 320, *Serials 1100 thru 1267:* Garmin GTX 327)
Course Deviation Indicator (*Serials 1005 thru 1047:* Garmin GI 102, *Serials 1048 thru 1267:* Garmin GI 102A)
Directional Gyro

Configuration B
Moving Map Display (ARNAV ICDS 2000 MFD)
Two-Axis Autopilot (S-Tec System 30)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
Two IFR Approach-Certified GPS (Garmin GNS 430 and Garmin GNS 420)
Two VHF Communications Transceivers (Garmin GNS 430 and Garmin GNS 420)
Single Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (*Serials 1005 thru 1099:* Garmin GTX 320, *Serials 1100 thru 1267:* Garmin GTX 327)
Horizontal Situation Indicator (Century NSD 360A)
Course Deviation Indicator (*Serials 1005 thru 1047:* Garmin GI 102, *Serials 1048 thru 1267:* Garmin GI 102A)

Configuration C
Moving Map Display (ARNAV ICDS 2000 MFD)
Two-Axis Autopilot (S-Tec System 55)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)

Configuration C (Continued)
Two IFR Approach-Certified GPS (Garmin GNS 430)
Two VHF Communications Transceivers (Garmin GNS 430)
Two Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)
Horizontal Situation Indicator (Century NSD 1000)
Course Deviation Indicator (*Serials 1005 thru 1047:* Garmin GI 106, *Serials 1048 thru 1267:* Garmin GI 106A)

Serials 1268 thru 1336:

Configuration 2.0
Moving Map Display (Avidyne EX3000C MFD)
Single-Axis Autopilot (S-Tec System 20)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
One IFR Approach-Certified GPS (Garmin GNS 430) and One VFR GPS (Garmin GNC 250XL)
Two VHF Communications (Garmin GNS 430 and Garmin GNC 250XL)
Single Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)
Horizontal Situation Indicator (Century NSD 1000)
Course Deviation Indicator (Garmin GI 106)

Configuration 2.1
Moving Map Display (Avidyne EX5000C MFD)
Two-Axis Autopilot (S-Tec System 30)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
Two IFR Approach-Certified GPS (Garmin GNS 430 and Garmin GNS 420)
Two VHF Communications Transceivers (Garmin GNS 430 and Garmin GNS 420)
Single Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)
Horizontal Situation Indicator (Century NSD 1000)
Course Deviation Indicator (Garmin GI 102A)

Configuration 2.2
Moving Map Display (Avidyne EX5000C MFD)
Two-Axis Autopilot (S-Tec System 55X)
Integrated Audio System with Intercom (Garmin GMA 340)

Configuration 2.2 (Continued)
Marker Beacon Receiver (Garmin GMA 340)
Two IFR Approach-Certified GPS (Garmin GNS 430)
Two VHF Communications Transceivers (Garmin GNS 430)
Two Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)
Electronic Navigation Display (Sandel SN3308)
Course Deviation Indicator (Garmin GI 106A)

Serials 1337 and subsequent:

Configuration PFD
Primary Flight Display (Avidyne FlightMax Entegra PFD)
Moving Map Display (Avidyne EX5000C MFD)
Two-Axis Autopilot (S-Tec System 55SR)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
One IFR Approach-Certified GPS (Garmin GNS 430) and One VFR GPS (Garmin GNC 250XL)
Two VHF Communications (Garmin GNS 430 and Garmin GNC 250XL)
Single Navigation (VOR/LOC/GS) Receiver (Garmin GNS 430)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)

Serials 1359 and subsequent:

Configuration SRV
Primary Flight Display (Avidyne FlightMax Entegra PFD)
Moving Map Display (Avidyne EX3000C MFD)
Integrated Audio System with Intercom (Garmin GMA 340)
Marker Beacon Receiver (Garmin GMA 340)
One IFR Certified GPS (Garmin GNC 420)
One VHF Communications (Garmin GNC 420)
Mode C Transponder with Altitude Encoder (Garmin GTX 327)

Serials 2016 and subsequent:

Configuration Perspective
Multi-Function Display (Garmin MFD)
Primary Flight Display (Garmin PFD)
Two-Axis Autopilot (Garmin GFC 700)
Serials 2016 thru 2126: Integrated Audio System with Intercom (Garmin GMA 347)

Configuration Perspective (Continued)
Serials 2127 & subs: Integrated Audio System with Intercom (Garmin GMA 350)
Serials 2016 thru 2126: Marker Beacon Receiver (Garmin GMA 347)
Serials 2127 & subs: Marker Beacon Receiver (Garmin GMA 350)
Two IFR Approach-Certified GPS (Garmin GIA 63W)
Two VHF Communications Transceivers (Garmin GIA 63W)
Two Navigation (VOR/LOC/GS) Receiver (Garmin GIA 63W)
Mode C Transponder with Altitude Encoder (Garmin GTX 32)
Flight Management System Keyboard (Garmin GCU 478)
Attitude and Heading Reference System (Garmin GRS 77)
Air Data Computer (Garmin GDC 74A)
Engine Airframe Unit (Garmin GEA 71)

Serials 2086, 2087, 2117, 2120, 2122 thru 2126, 2129 thru 2132, and TBD with Option Installed:

Configuration "S" United States Airforce Academy
Perspective Avionics Configuration with following options installed:
- 10-inch PFD Display
- 10-inch MFD Display
- Single Attitude and Heading Reference System (Garmin GRS 77)
- Single Air Data Computer (Garmin GDC 74A)
- Engine Airframe Unit (Garmin GEA 71)
- Integrated Audio System with Intercom (Garmin GMA 347)
- Marker Beacon Receiver (Garmin GMA 347)
- Two IFR Approach-Certified GPS (Garmin GIA 63W)
- Two VHF Communications Transceivers (Garmin GIA 63W)
- Two Navigation (VOR/LOC/GS) Receiver (Garmin GIA 63W)
- Flight Management System Keyboard (Garmin GCU 478)
- Mode C Transponder with Altitude Encoder (Garmin GTX 32)
- Garmin GTS 800 Traffic Advisory System
- No Automatic Flight Control System (ACFS)
- No Garmin Synthetic Vision (SynVis)
- No Weather System (WX)
- No Terrain Awareness & Warning (TAWS)
- No Terminal Procedure Chart System
Artex ME406 Emergency Locator Transmitter (ELT)
Vent-Only Environment Control System
Fabric Seats

Configuration “S” United States Airforce Academy (Continued)
2-Blade Propeller
No Wheel Pants
No Rear Seats
No Rear Seat Headset Plugs
No Ice Protection System
No Carbon Monoxide (CO) Detector
No Enhanced Vision System (EVS)
No Wing Recognition Lights

B. Optional Equipment

Airplane serial effectivities shown in the effectivity column may be further limited by optional equipment installations. Cirrus Design offers the SR20 with the optional equipment listed in the table below; therefore, the effectivity column for a figure may also be limited by the installed optional equipment.

Installation
Serials 1005 through 1336: Century NSD 1000 Horizontal Situation Indicator
Serials 1148 and subsequent: Goodrich SkyWatch
Serials 1032 and subsequent: Goodrich Stormscope
Serials 1148 and subsequent: S-Tec System 55X
Serials 1148 through 1336: Sandel SN3308 Electronic Navigation Display
Serials 1179 and subsequent: Avidyne EX3000C and EX5000C MFD
Serials 1233 and subsequent: Avidyne EMax Engine Monitoring System
Serials 1425 & subsequent: Garmin Mode S Transponder
Serials 1441 & subsequent: Honeywell Terrain Awareness and Warning System
Serials 1473 & subsequent: Avidyne XM WX Weather System
Serials 2127 & subs: Iridium Weather System
Serials 1494 & subsequent: Avidyne Flight Director
Serials 1533 & subsequent: XM Radio System
Serials 1639 & subsequent: Cabin Air Fan Assembly
Serials 2065 & subs w/ Perspective Avionics: Air Conditioning System
Serials 2065 & subs: Oleo Strut
Serials 1639 & Subsequent: Artex ME406 Emergency Locator Transmitter (ELT)
Serials 2016 & subsequent: Bendix/King Distance Measuring Equipment
Serials 2016 & subsequent: Bendix/King Automatic Direction Finder
Serials 2016 & subsequent: Garmin Synthetic Vision
Serials 2016 & subsequent: Enhanced Vision System
Serials 2127 & subs: 2+1 Rear Seat
Serials 2127 & subs: Three-Harness Shoulder Belt
Serials 2127 & subs: Cargo Net

4. HOW TO USE THE CATALOG LISTINGS

A. When the Part Number is unknown:

(1) Open the catalog to the applicable chapter and turn to the Table of Contents for that chapter.

(2) Select the applicable figure from the Table of Contents and turn to that figure.

(3) Examine the illustration to locate the required part and note the item number.

(4) Locate the item number in the parts listing associated with the illustration. The part information immediately to the right of the item number contains all the information required to order the part. Pay special attention to symbol notes and nomenclature notes.

B. When the Part Number is known:

(1) Open the catalog to the Numerical Index after the INTRODUCTION tab. All part numbers in the catalog and the corresponding Chapter-Section-Figure-Item Numbers are listed in part number sequence.

(2) Using the Numerical Index, determine the Chapter-Section-Figure and Item Number (if the item number is given) for the desired part number. Item numbers are not listed for part numbers that appear only in an “ORDER CIRRUS P/N …” notation.

(3) Turn to the applicable figure and locate the item number in the parts listing. The part information immediately to the right of the item number contains all the information required to order the part. Pay special attention to symbol notes and nomenclature notes.

5. HOW TO ORDER PARTS

Parts may be ordered by online, via email, or via telephone by contacting the Cirrus Direct parts department at the factory in Duluth, Minnesota, or by calling a parts representative at any Cirrus Design Authorized Service Center. Only Cirrus Authorized Service Centers may order parts directly through Cirrus.

When ordering parts, be prepared to supply the following data:

- Your Ship To address;
- Your billing information;
- The aircraft serial number;
- The part number and nomenclature; and
- The quantity required.

Additionally, warranty information and information relating to the aircraft and component reliability may be requested by Cirrus. This information is not required; however, the collection and analysis of this data will help enable Cirrus Design to identify and respond to field conditions arising from airplane utilization. In addition to the data required above, you may be asked to supply the following data:

- The total number of flight hours or landings on the airplane;
- The total number of flight hours or landings on the failed component;
- The number of hours or landings since the last annual or 100-hour inspection;
- The suspected reason for failure of the component; and
- Other questions relating to the in-service environment of the airplane.

For assistance in determining the correct part and effectivity from this catalog or other questions pertaining to parts procurement, contact any Cirrus Design Authorized Service Center or the Cirrus Direct parts department.

Cirrus Direct Parts Department

4515 Taylor Circle

Duluth, MN 55811

Phone: (218) 788-3000

E-mail: parts@cirrusdesign.com

Web: www.buycirrusdirect.com

Note: Cirrus Design Corporation reserves the right to add, change, or remove the parts and assemblies described in this catalog.

6. REVISIONS

This manual has been prepared in loose-leaf form for ease in inserting revisions. Tabbed dividers, throughout the manual, are in standard GAMA format and numbering and allow quick reference to data in each section. Logical and convenient Tables of Contents are located at the beginning of each chapter to aid in locating specific data within that chapter.

Numbered revisions will be issued periodically. These revisions are printed on white paper and contain a revision instruction sheet to assist the user in filing the change. Upon receipt of a numbered revision, file it according to the provided instructions as soon as possible. Additionally, a record of filing must be made on the Log of Revisions page in the front matter of the IPC.

7. TEMPORARY REVISIONS

Temporary revisions are used to provide time sensitive information and changes as they become available. Temporary revisions provide, with the least possible delay, new information which assists in maintaining safe and efficient flight/ground operations.Temporary revisions are incorporated at the next regularly scheduled revision and become a permanent part of the manual.

Upon receipt of a Temporary Revision, file the revision in the applicable chapter in accordance with filing instructions that appear on the Temporary Revision. Additionally, a record of filing the Temporary Revision must be made in the Log of Temporary Revisions just behind the Log of Revisions in the front matter of the IPC. Typically, the Log of Temporary Revisions will be replaced by a blank log when a numbered revision is issued.

Temporary Revisions should be removed from this manual only when removal instructions are noted on the regular revision summary sheet or by instructions noted on a superseding Temporary Revision.

8. REVISION BARS

Changes to data in an existing section will be identified by a revision bar in the outer margin of the page.

Pointing hands and change bars may be used in figures to indicate changes.

9. PUBLICATION CHANGE REQUEST FORM

A Publication Change Request form can be found online at the following link:

http://servicecenters.cirrusdesign.com/TechPubs/serviceloopform.asp

Use the form to submit a Publications Change Request to our Engineering Department and/or to tell us what you think of the quality of the publication. We will use the data you provide us to improve the quality of our technical publications.

10. HARDWARE SUBSTITUTION LIST

Part Number	Nomenclature	Substitution Part Number
AN526C1032R4	SCREW, TRUSS HEAD, CRES	MS51958-59
AN807-4D	ADAPTER, STRAIGHT, TUBE TO HOSE FITTING	AS5180D04
AN807-6D	ADAPTER, STRAIGHT, TUBE TO HOSE FITTING	AS5180D06
AN807-8D	ADAPTER, STRAIGHT, TUBE TO HOSE FITTING	AS5180D08

11. NUMERICAL INDEX

Using the Numerical Index, determine the Chapter-Section-Figure and Item Number for the desired part number. Click on partnumber to open the associated file. If working with paper manuals, turn to the applicable figure and locate the item number in the parts listing. Pay special attention to symbol notes and nomenclature notes.

CHAPTER 22 - AUTOFLIGHT

TABLE OF CONTENTS

Subject	Chap-Sect-Fig
Turn Coordinator/Roll Computer - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD	22-10-01
System 30 w/ GPSS Installation	22-11-01
System 55 (55/55X/55SR) - Serials 1005 & subs w/ Avidyne Avionics (1 of 2)	22-12-01
System 55 (55X/55SR) - Serials 2016 & subs w/ Perspective Avionics (2 of 2)	22-12-01
Pitch Servo - Serials 1886 & subs w/o Air Conditioning and w/ System 55	22-12-02
Pitch Servo - Serials 2065 & subs w/ Air Conditioning and w/ System 55	22-12-02
Flight Director - Serials 1494 thru 2015, 2016 & subs w/o Perspective (1 of 2)	22-12-03
Flight Director - Serials 2016 & subs w/ Perspective and System 55X Autopilot (2 of 2)	22-12-03
GMC 705 Autopilot - Serials 2016 & subs w/ Perspective Avionics	22-13-01
Pitch Servo - Serials 2016 & subs w/ Perspective Avionics	22-13-02
Roll Servo - Serials 2016 & subs w/ Perspective Avionics	22-13-03
GTA 82 Pitch Trim Adapter - Serials 2016 & subs w/ Perspective Avionics	22-13-04
Take-Off/Go-Around Switch - Serials 2016 & subs w/ Perspective Avionics	22-20-01

SYMBOL NOTES:

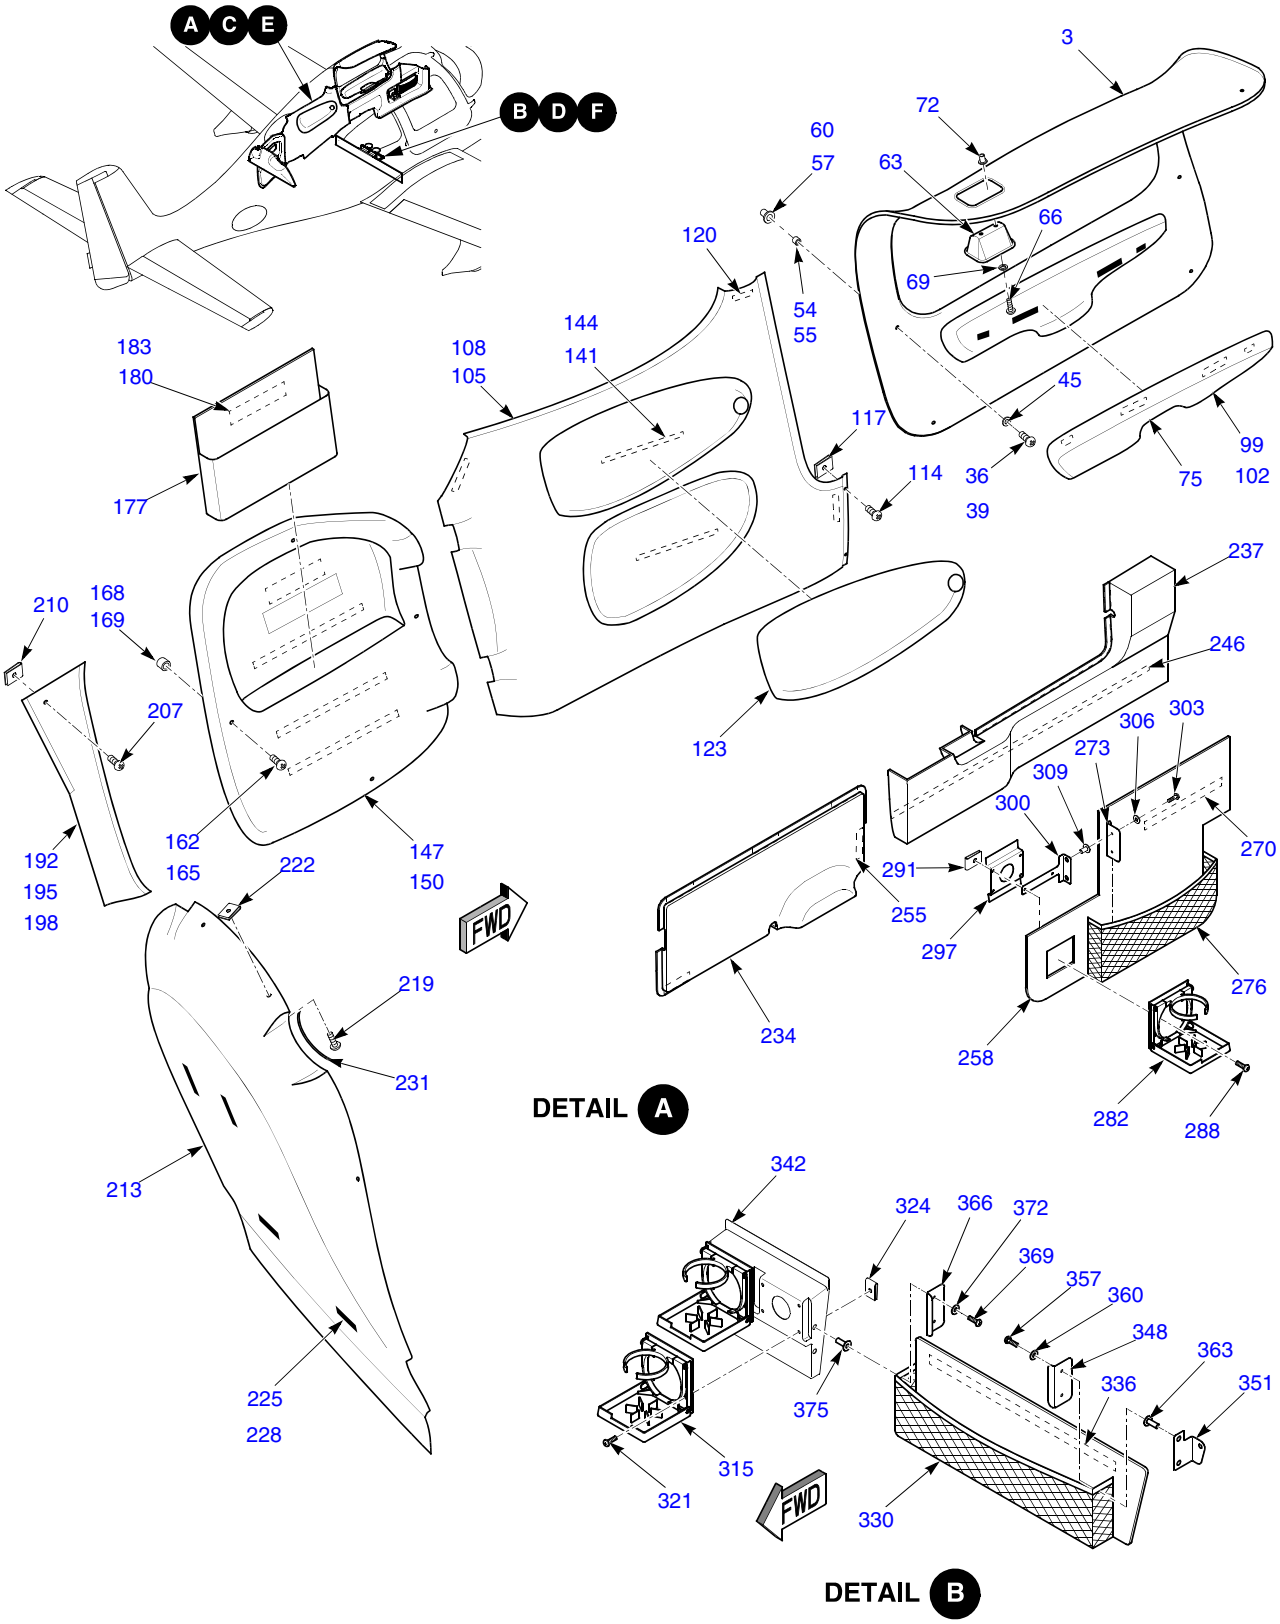
**	SEE SPECIAL CONDITIONS SECTION OF IPC INTRODUCTION FOR DETAILED DESCRIPTIONS OF THE FOLLOWING:
	1) AIRCRAFT SERIAL NUMBER 1633, REFER TO SERIAL 1639 FOR PART IDENTIFICATION.
	2) AIRCRAFT SERIAL NUMBER 1878, REFER TO SERIAL 1886 FOR PART IDENTIFICATION.
#	SERIAL NUMBERS W/O PERSPECTIVE AVIONICS.
%	SERIAL NUMBERS W/ PERSPECTIVE AVIONICS.
@	BULK ITEM CUT TO LENGTH.
$	SPECIFY COLOR AND MATERIAL WHEN ORDERING.
&	INSTALLED ON X-EDITION AIRCRAFT WITHOUT ADF.
!	SERIAL NUMBERS W/ MD302

EFFECTIVITY:
All



Serials 1005 thru 1053.

CHAPTER 32 - LANDING GEAR

TABLE OF CONTENTS

Subject	Chap-Sect-Fig
Main Landing Gear Fairings - Serials 1005 thru 1137 (1 of 3)	32-10-01
Main Landing Gear Fairings - Serials 1138 thru 1885 (2 of 3)	32-10-01
Main Landing Gear Fairings - Serials 1886 & subs (3 of 3)	32-10-01
Main Landing Gear - Serials 1005 thru 1885 before SB2X-32-21 (1 of 6)	32-10-02
Main Landing Gear - Serials 1005 thru 1885 after SB2X-32-21 (2 of 6)	32-10-02
Main Landing Gear - Serials 1886 thru 2074 before SB2X-32-21 (3 of 6)	32-10-02
Main Landing Gear - Serials 1886 thru 2074 after SB2X-32-21 (4 of 6)	32-10-02
Main Landing Gear - Serials 2075 thru 2240 before SB2X-32-21 (5 of 6)	32-10-02
Main Landing Gear - Serials 2075 thru 2240 after SB2X-32-21, 2241 & subs (6 of 6)	32-10-02
Nose Gear Fairing - Serials 1005 thru 1424, 1431 thru 1475 (1 of 4)	32-20-01
Nose Gear Fairing - Serials 1425 thru 1430, 1476 thru 1885 (2 of 4)	32-20-01
Nose Gear Fairing - Serials 1886 thru 2064 (3 of 4)	32-20-01
Nose Gear Fairing - Serials 2065 & subs (4 of 4)	32-20-01
Nose Landing Gear - Serials 1005 thru 1885 (1 of 3)	32-20-02
Nose Landing Gear - Serials 1886 thru 2064 (2 of 3)	32-20-02
Nose Landing Gear - Serials 2065 & subs (3 of 3)	32-20-02
Brake System - Serials 1005 thru 1885 before SB2X-32-21 (1 of 8)	32-42-01
Brake System - Serials 1005 thru 1885 after SB2X-32-21 (2 of 8)	32-42-01
Brake System - Serials 1886 thru 2240 before SB2X-32-21 (3 of 8)	32-42-01
Brake System - Serials 1886 thru 2240 after SB2X-32-21, 2241 & subs (4 of 8)	32-42-01
Brake System (5 of 8)	32-42-01
Brake System (6 of 8)	32-42-01
Brake System - Serials 1005 thru 1885 (7 of 8)	32-42-01
Brake System - Serials 1886 & subs (8 of 8)	32-42-01
Brake Assembly - Serials 1005 thru 1600 before SB2X-32-13 and before SB2X-32-21 (1 of 5)	32-42-02
Brake Assembly - Serials 1005-1600 after SB2X-32-13, 1601-2240, & before SB2X-32-21 (2 of 5)	32-42-02
Brake Assembly - Serials 1005 thru 2240 after SB2X-32-21, 2241 & subs (3 of 5)	32-42-02
Brake Assembly - Serials 2016 thru 2240 w/ Perspective Avionics before SB2X-32-21 (4 of 5)	32-42-02
Brake Assembly - Serials 2016 thru 2240 after SB2X-32-21, 2241 & subs (5 of 5)	32-42-02

					AFTER SB2X-33-07	1005		4

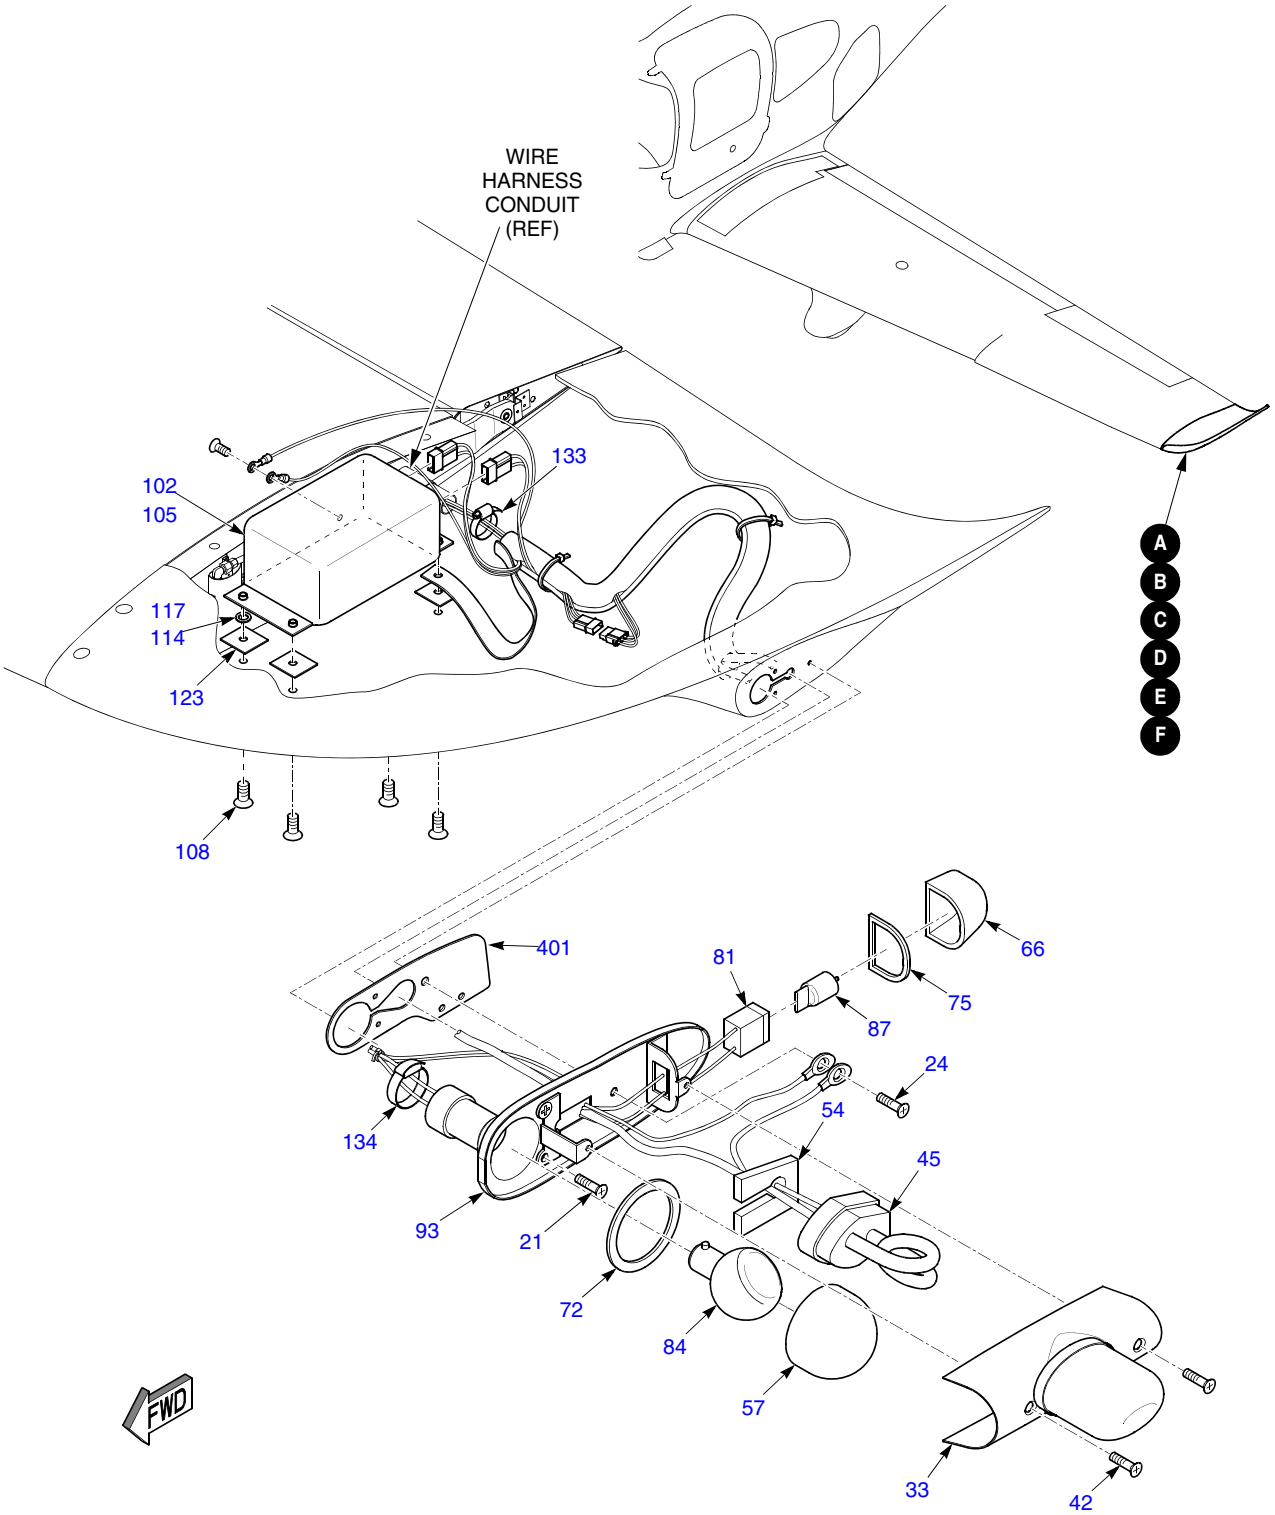
SYMBOL NOTES:

^	ALTERNATE INSTALLATION USES P/N 25906-001 LENS, 25905-001 RETAINER, AND 51219-044 SCREW.
!	CUT TO LENGTH.
@	RUBBER WASHER IN THIS LOCATION IS OPTIONAL.
#	ONE OR TWO WASHERS MAY BE PLACED AT THIS LOCATION TO ADJUST LANDING LIGHT POSITION.
$	SHIM MAY BE INSTALLED, AS REQUIRED, BETWEEN CLAMP AND GASKET.
%	LOPRESTI LANDING LIGHT ASSEMBLIES COME WITH SHIELDED WIRES, LOOM IS OPTIONAL.
*	USE MS21919WDG11 CLAMP WITH OPTIONAL 50943-063 LOOM.
&	INSTALLED ON AIRCRAFT W/ PERSPECTIVE AVIONICS.
(	IF REPLACING, ORDER KIT 70244-001

EFFECTIVITY:
All



DETAIL A

Serials 1005 thru 1877, 1879 thru 1885 before SB 2X-33-03.

CHAPTER 34 - NAVIGATION AND PITOT STATIC

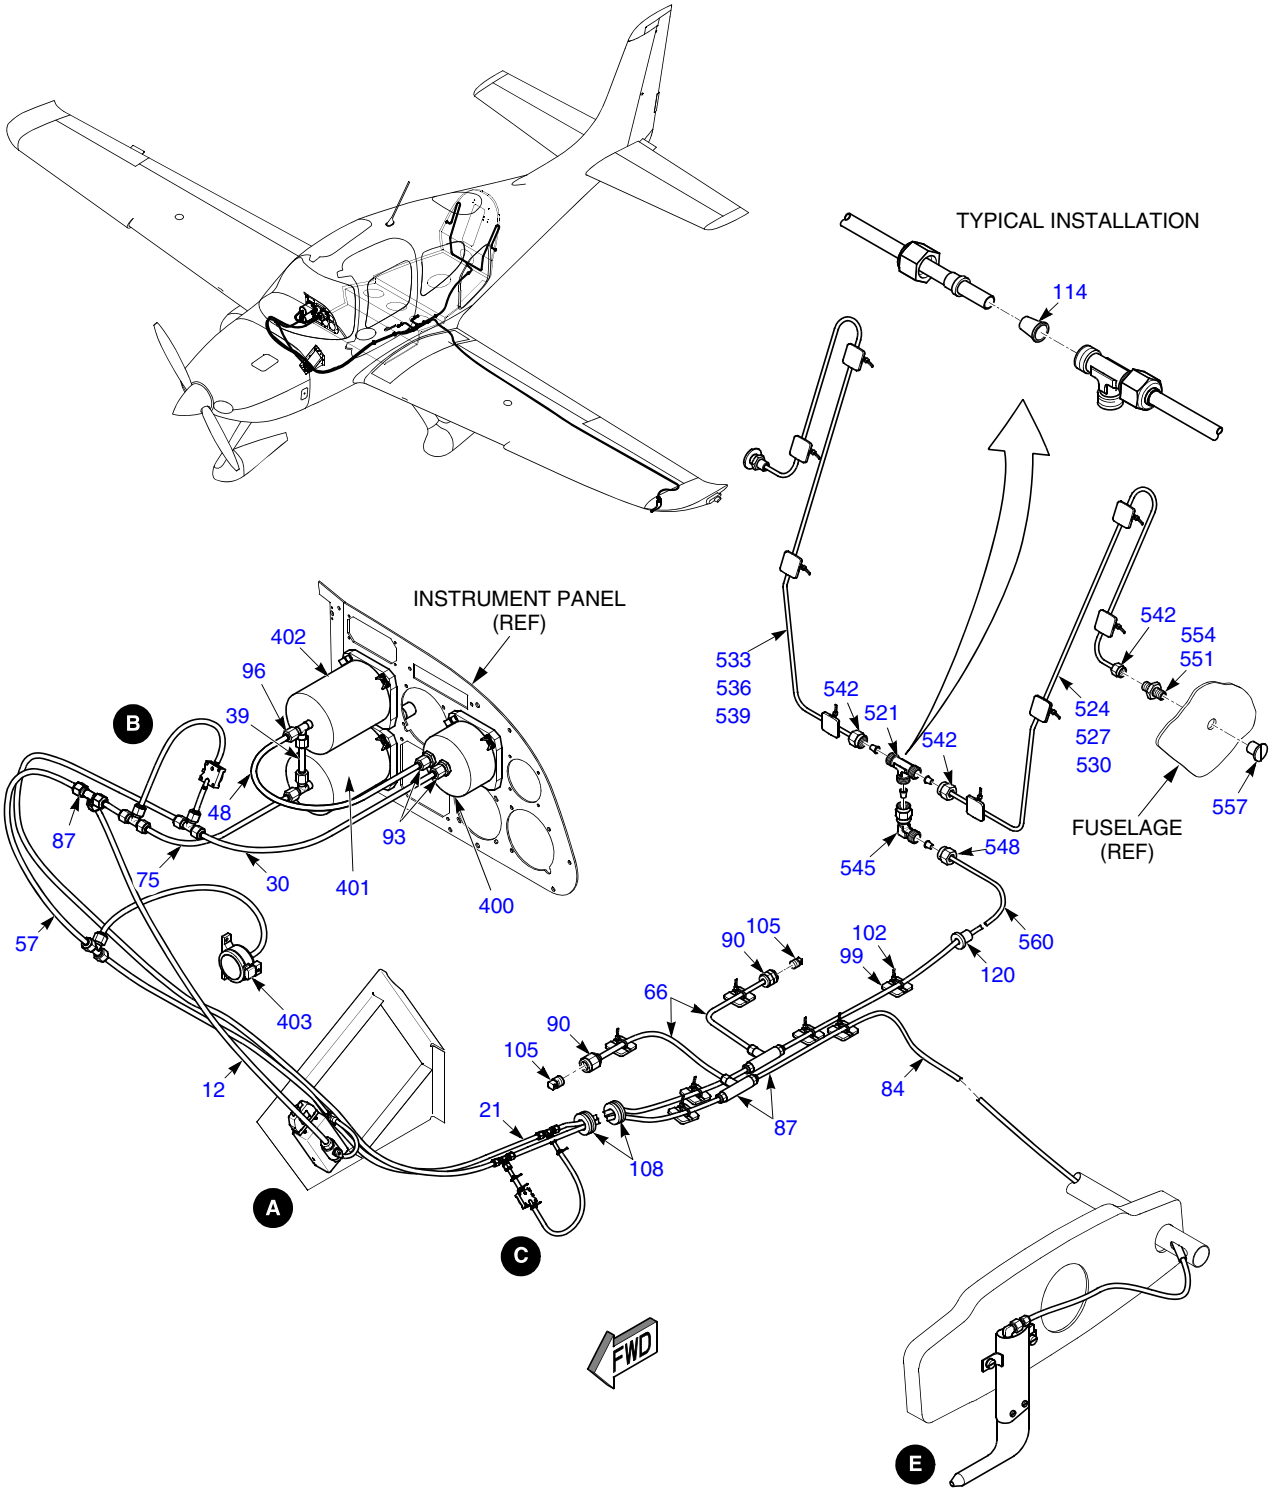
TABLE OF CONTENTS

Subject	Chap-Sect-Fig
Pitot-Static System - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 8)	34-10-01
Pitot-Static System - Serials 1337 thru 1422 w/ PFD, 1423 & 1632, 1634 thru 1638 (2 of 8)	34-10-01
Pitot-Static System - Serials 1633, 1639 thru 1877, 1879 thru 1885 (3 of 8)	34-10-01
Pitot-Static System - Serials 1878, 1886 & subs w/o Perspective Avionics (4 of 8)	34-10-01
Pitot-Static System - Serials 2016 & subs w/ Perspective Avionics (5 of 8)	34-10-01
Serials 2273 & subs w/ MD302 Standby Attitude Module	34-10-01
Pitot-Static System (6 of 8)	34-10-01
Pitot-Static System (7 of 8)	34-10-01
Pitot-Static System (8 of 8)	34-10-01
Vertical Speed Indicator - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD	34-10-02
Airspeed Indicator - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 3)	34-10-03
Airspeed Indicator - Serials 1337 thru 1422 w/ PFD, 1423 & subs (2 of 3)	34-10-03
Airspeed Indicator - Serials 1337 & subs w/ SRV (3 of 3)	34-10-03
Altimeter - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 3)	34-10-04
Altimeter - Serials 1337 thru 1422 w/ PFD, 1423 & subs (2 of 3)	34-10-04
Altimeter - Serials 1337 & subs w/ SRV (3 of 3)	34-10-04
Electric Clock/OAT - Serials 1005 thru 1581 (1 of 2)	34-10-05
Electric Clock/OAT - Serials 2016 & subs w/ Perspective Avionics (2 of 2)	34-10-05
Air Data Computer - Serials 2016 & subs w/ Perspective Avionics	34-10-06
Serials 2273 & subs w/ MD302 Standby Attitude Module	34-10-07
Magnetic Compass - Serials 1005 thru 1422 (1 of 2)	34-20-01
Magnetic Compass - Serials 1423 & subs (2 of 2)	34-20-01
Attitude Indicator - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 2)	34-20-02
Attitude Indicator - Serials 1337 thru 1422 w/ PFD, 1423 & subs, w/o SRV (2 of 2)	34-20-02
Directional Gyro - Serials 1005 thru 1267	34-20-03
Turn Coordinator - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 2)	34-20-04
Turn Coordinator - Serials 1337 thru 1422 w/ PFD, 1423 & subs, w/o SRV (2 of 2)	34-20-04
Magnetometer/OAT Sensor - Serials 1337 thru 1422 w/ PFD, 1423 thru 1885 (1 of 3)	34-20-05
Magnetometer/OAT Sensor - Serials 1886 - 2015, 2016 & subs w/o Perspective (2 of 3)	34-20-05
Magnetometer/OAT Sensor - Serials 2016 & subs w/ Perspective (3 of 3)	34-20-05
Attitude Heading Reference System - Serials 2016 & subs w/ Perspective Avionics	34-20-06
Marker Beacon Antenna Installation - Serials 1005 thru 2064 (1 of 2)	34-30-01
Marker Beacon Antenna Installation - Serials 2065 & subs (2 of 2)	34-30-01

CHAPTER 34 - NAVIGATION AND PITOT STATIC

TABLE OF CONTENTS

Subject	Chap-Sect-Fig
Stormscope Installation (1 of 2)	34-40-01
Stormscope Installation (2 of 2)	34-40-01
Skywatch and Antenna - Serials 1005 thru 1638 (1 of 3)	34-40-02
Skywatch and Antenna - Serials 1639 & subs (2 of 3)	34-40-02
Skywatch and Antenna (3 of 3)	34-40-02
TAWS Installation	34-40-03
GTS 800 Traffic System - Serials 2047 & subs w/ Perspective Avionics and w/o GDL 88 (1 of 3)	34-40-04
GTS 800 Traffic System - Serials w/ GDL 88 (2 of 3)	34-40-04
GTS 800 Traffic System - Serials 2047 & subs w/ Perspective Avionics (3 of 3)	34-40-04
COM/NAV (1 of 2)	34-50-01
COM/NAV (2 of 2)	34-50-01
WAAS/GPS/COM Antennas - Serials 1005 thru 1815 (1 of 3)	34-50-02
WAAS/GPS/COM Antennas (2 of 3)	34-50-02
WAAS/GPS/COM Antennas - Serials 1816 & subs (3 of 3)	34-50-02
Transponder and Antenna - Serials 1005 - 2015, 2016 & subs w/o Perspective (1 of 2)	34-50-03
Transponder and Antenna - Serials 2016 & subs w/ Perspective (2 of 2)	34-50-03
VOR/LOC and Antenna (1 of 2)	34-50-04
VOR/LOC and Antenna (2 of 2)	34-50-04
HSI - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 2)	34-50-05
HSI - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (2 of 2)	34-50-05
XM Radio/Weather - Serials 1005 thru 1638 (1 of 5)	34-50-06
XM Radio/Weather - Serials 1639 thru 1797 (2 of 5)	34-50-06
XM Radio/Weather - Serials 1798 thru 2015, 2016 & subs w/o Perspective Avionics (3 of 5)	34-50-06
XM Radio/Weather - Serials 2016 & subs w/ Perspective Avionics (4 of 5)	34-50-06
XM Radio/Weather - Serials 1582 & subs w/ factory XM Weather (5 of 5)	34-50-06
DME - Serials 2016 & subs w/ Perspective Avionics	34-50-07
ADF - Serials 2016 & subs w/ Perspective Avionics	34-50-08
Iridium Weather System - Serials 2127 & subs	34-50-09
Flight Management System Keyboard - Serials 2016 & subs w/ Perspective Avionics	34-60-01



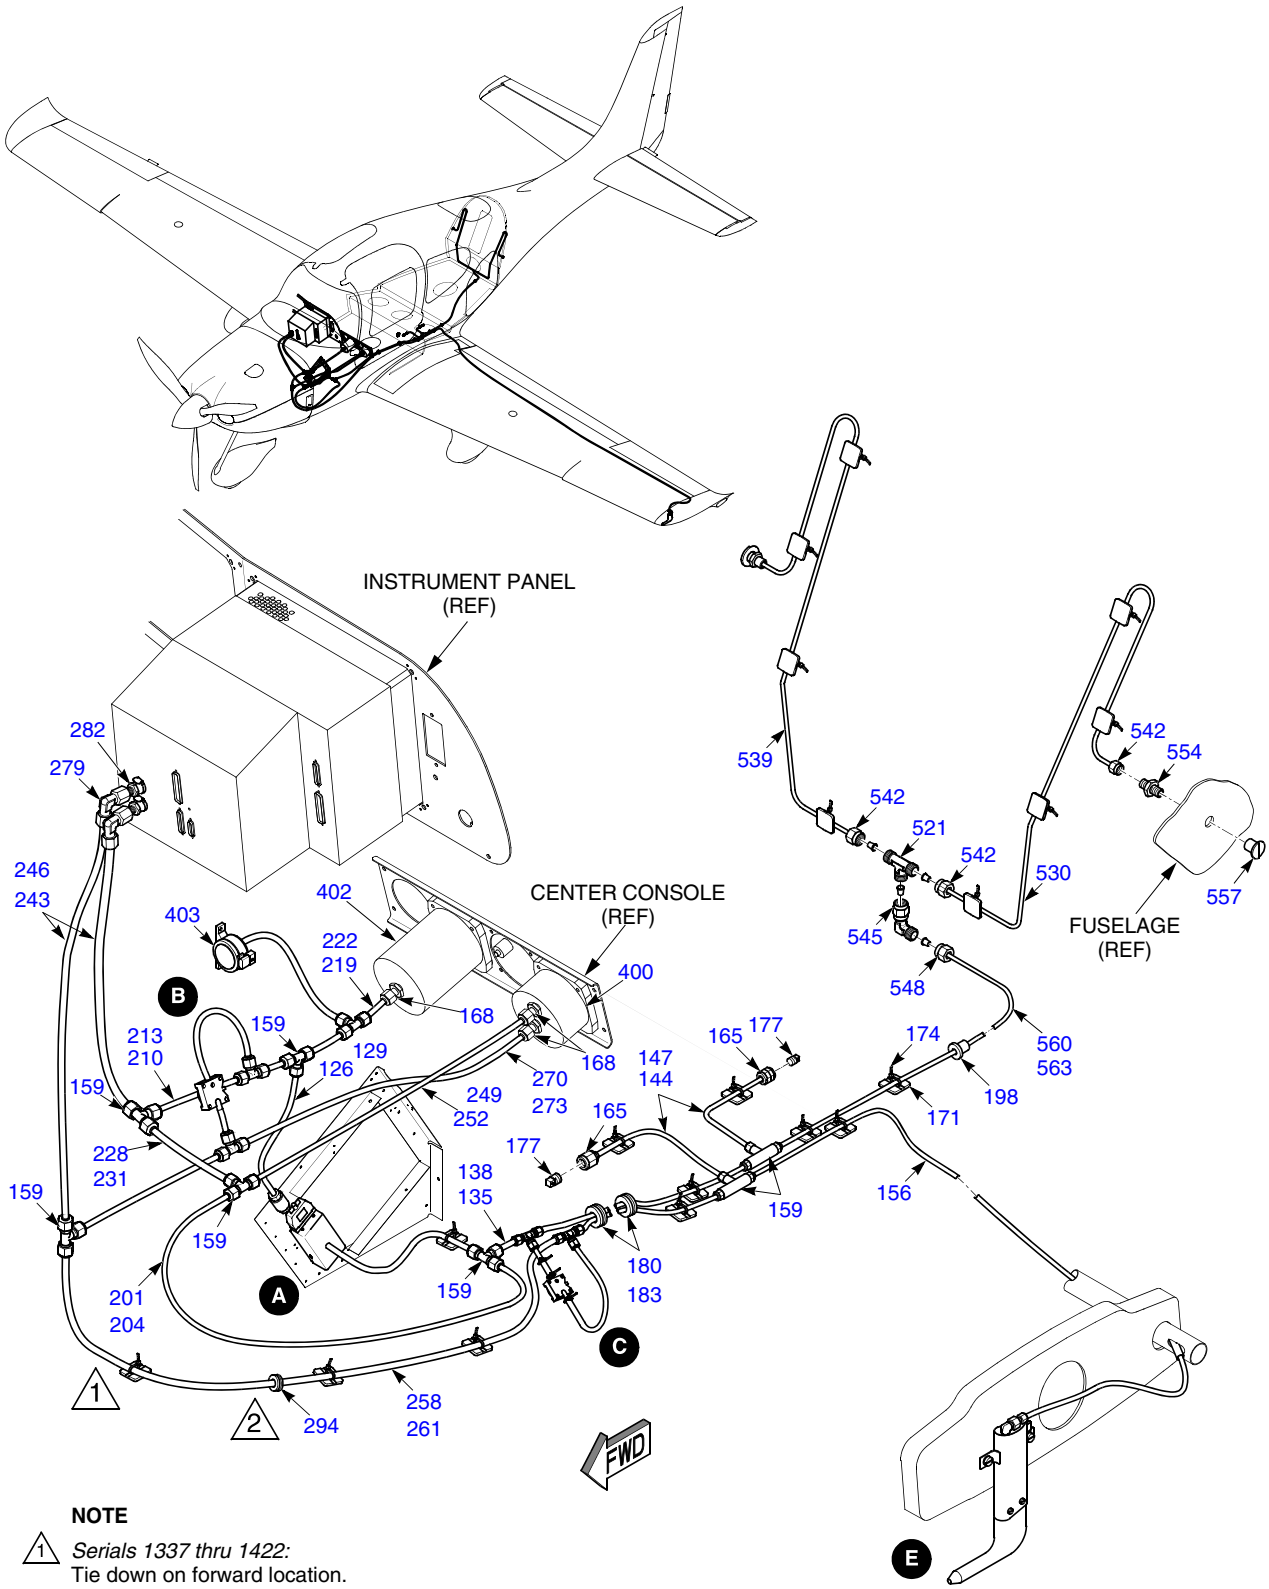
Serials 1005 thru 1336, 1337 thru 1422 w/o PFD.

SR20_PC34_1054E

Figure-01

Pitot-Static System - Serials 1005 thru 1336, 1337 thru 1422 w/o PFD (1 of 8)

EFFECTIVITY:
Serials 1005 thru 1336, 1337 thru 1422 w/o PFD



NOTE

1 *Serials 1337 thru 1422:*
Tie down on forward location.

2 *Serials 1423 & subs:*
Grommet on forward location.

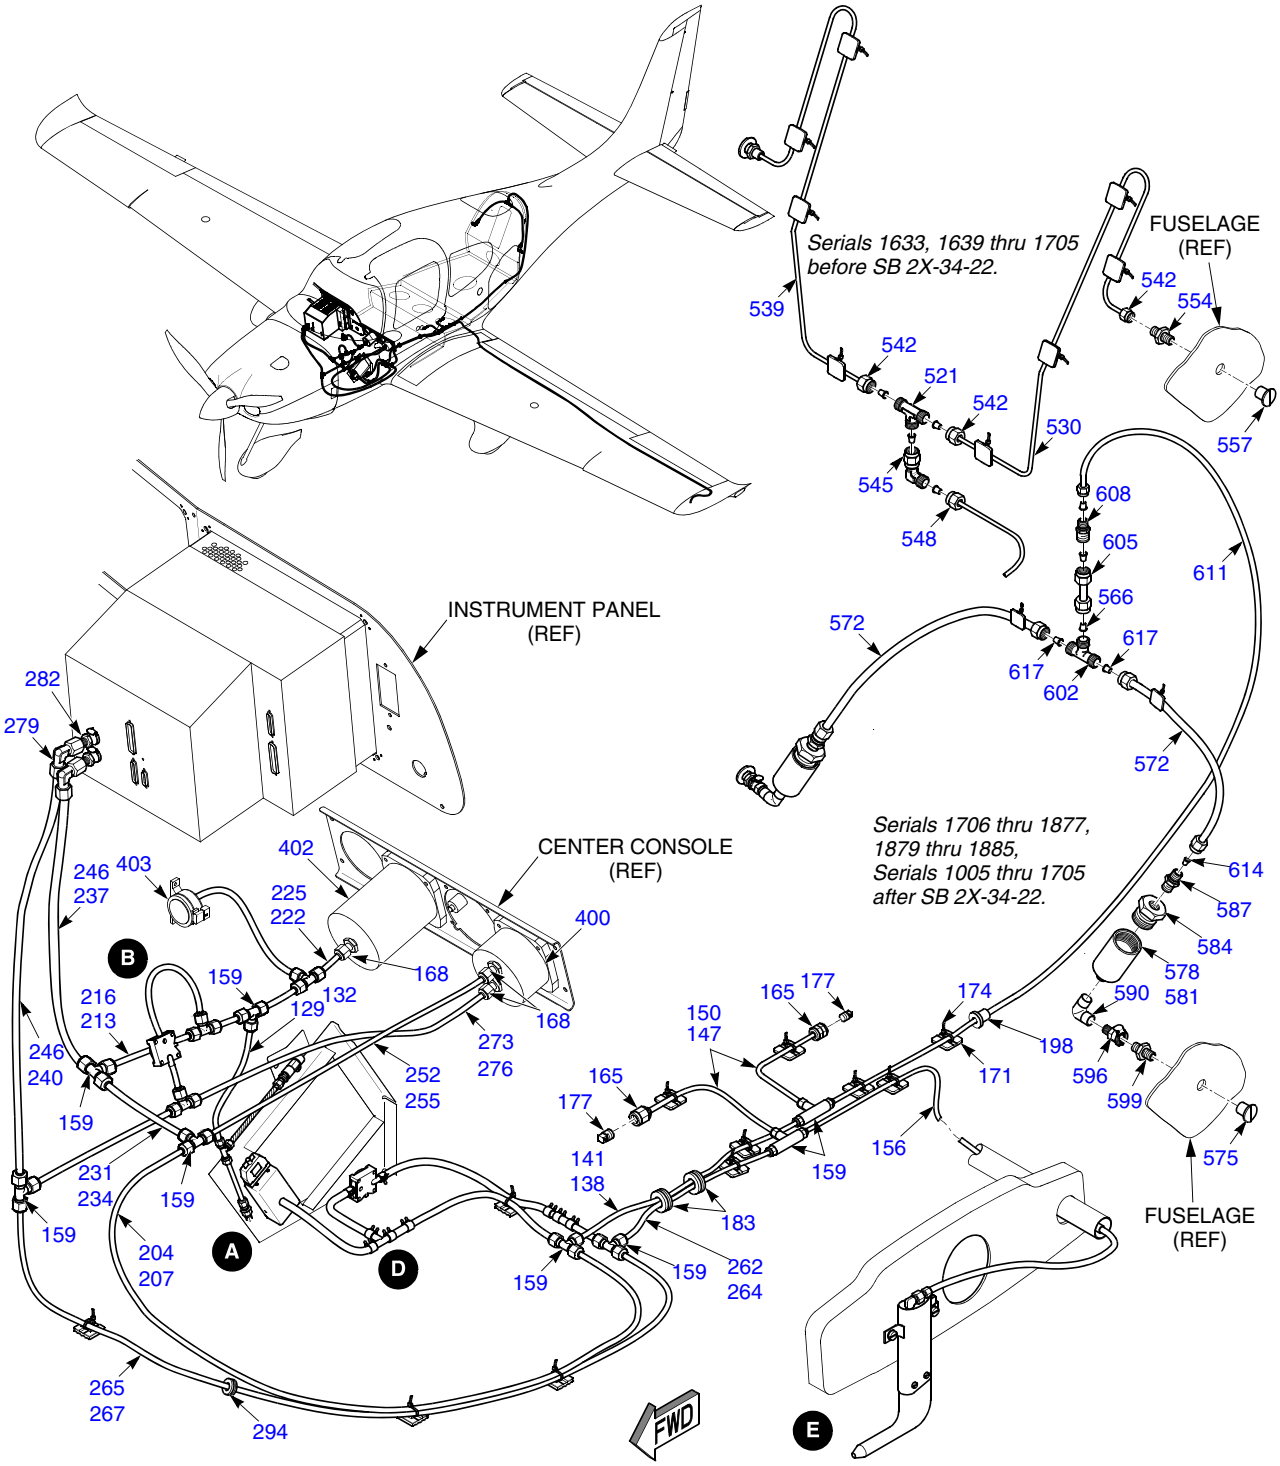
Serials 1337 thru 1422 w/PFD, 1423 thru 1632, 1634 thru 1638 before SB 2X-34-22.

SR20_PC34_1336C

Figure-01

Pitot-Static System - Serials 1337 thru 1422 w/ PFD, 1423 & 1632, 1634 thru 1638 (2 of 8)

EFFECTIVITY:
Serials 1337 thru 1422 w/ PFD, 1423 & 1632, 1634 thru 1638

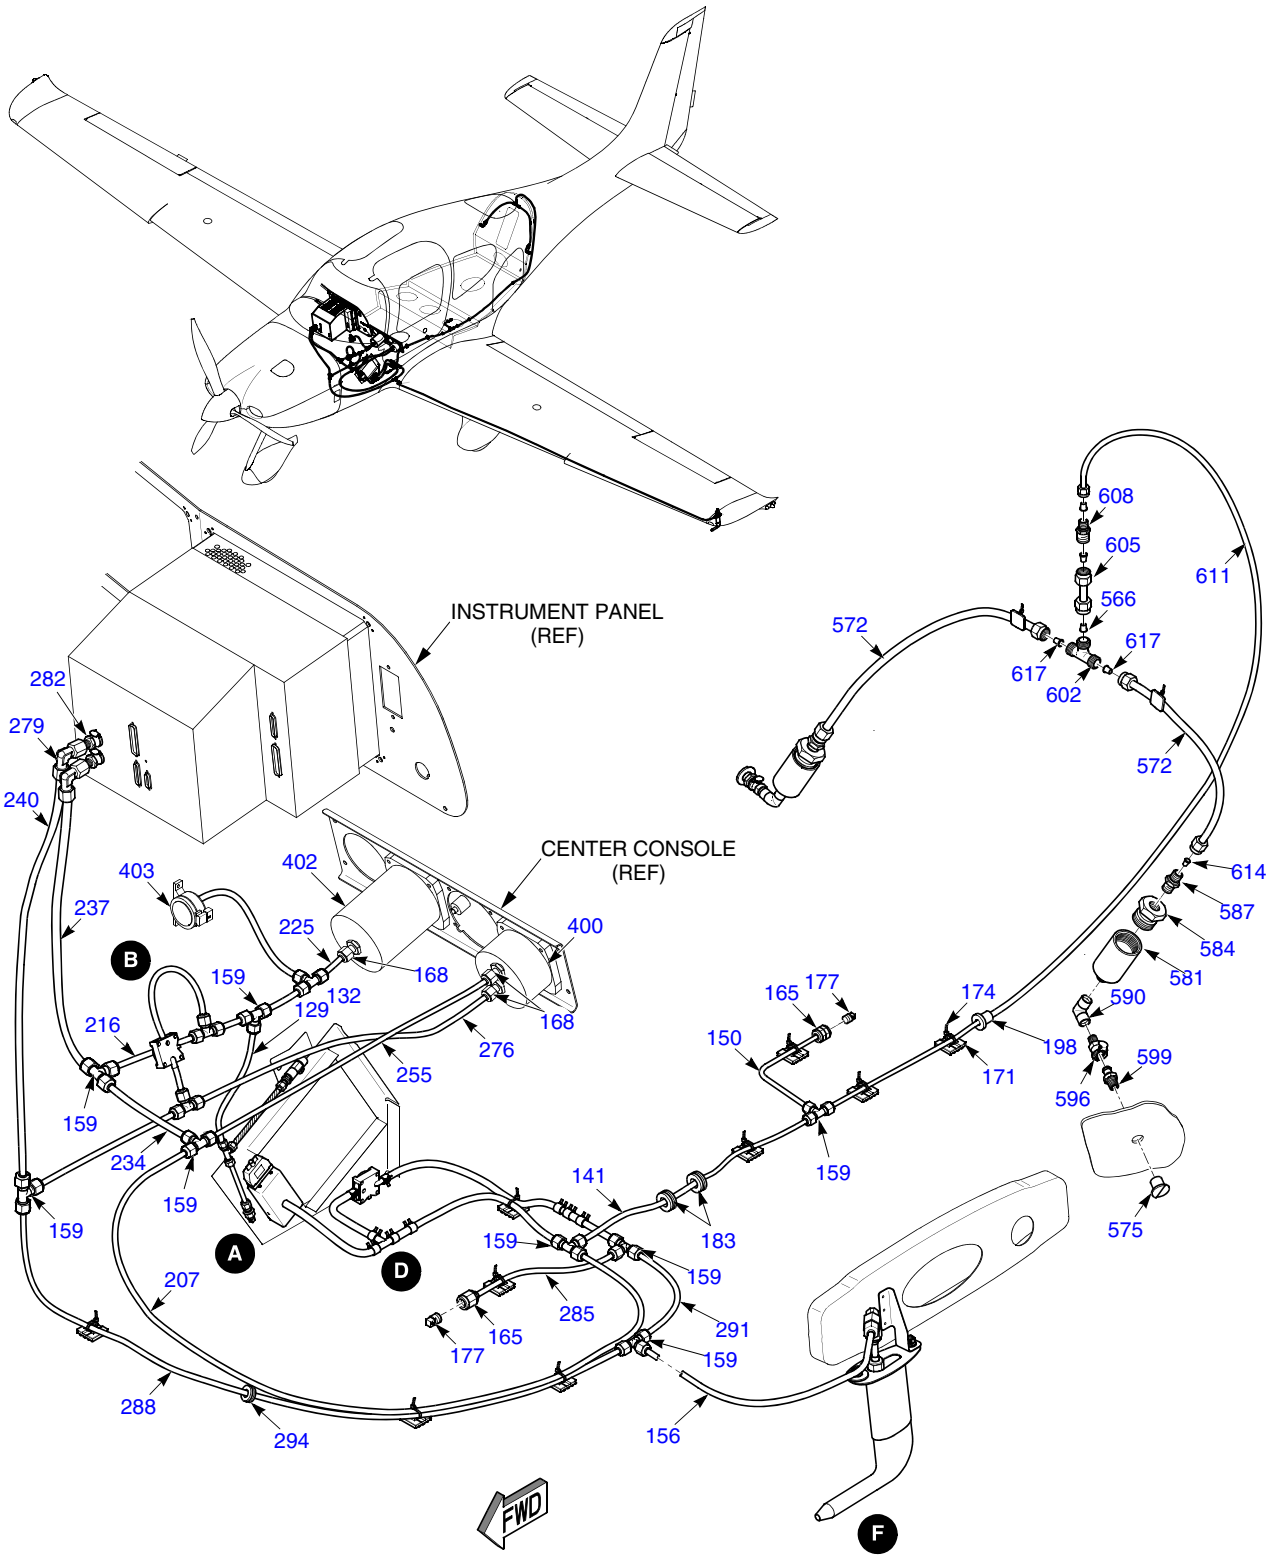


Serials 1633, 1639 thru 1877, 1879 thru 1885.

SR20_PC34_1734

Figure-01

Pitot-Static System - Serials 1633, 1639 thru 1877, 1879 thru 1885 (3 of 8)



Serials 1878, 1886 & subs w/o Perspective Avionics.

SR20_PC34_1735A

Figure-01

Pitot-Static System - Serials 1878, 1886 & subs w/o Perspective Avionics (4 of 8)

EFFECTIVITY:
Serials 1878, 1886 & subs w/o Perspective Avionics

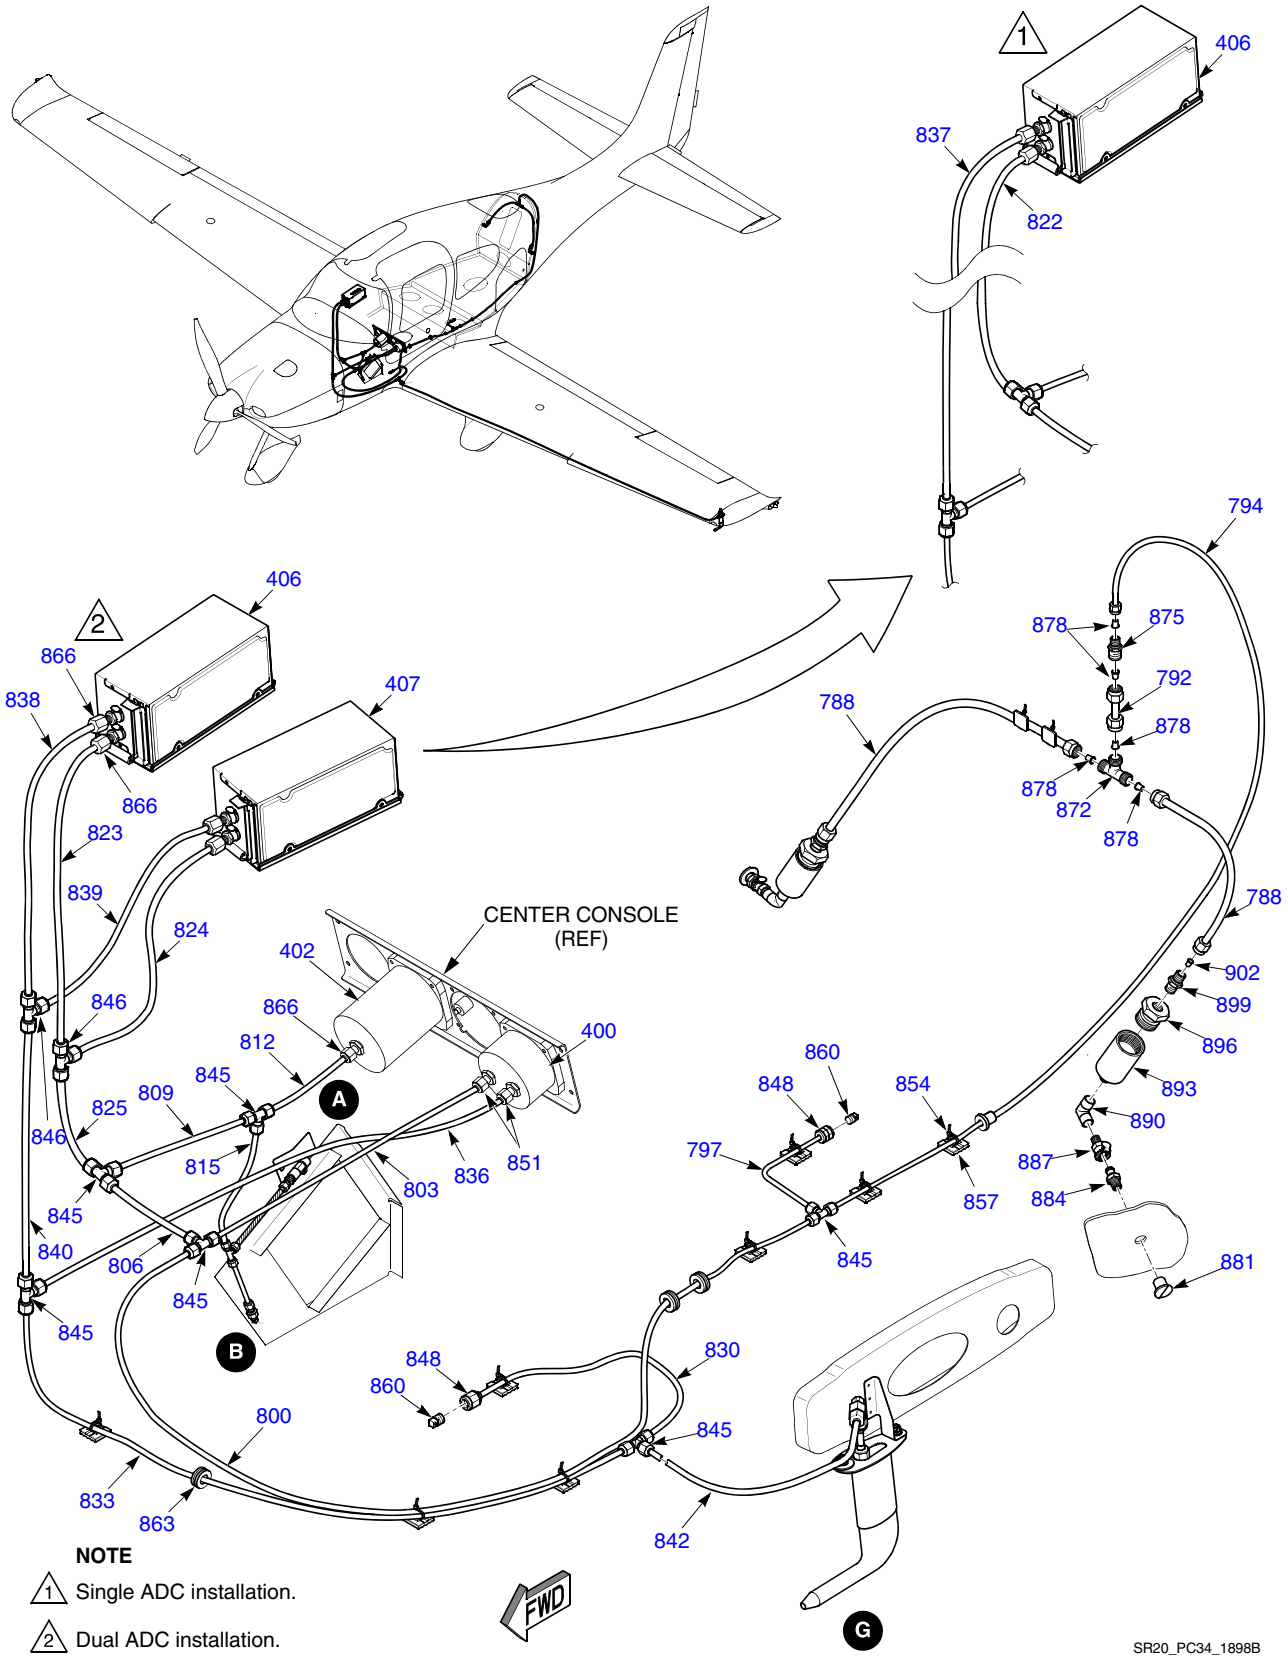


Figure-01

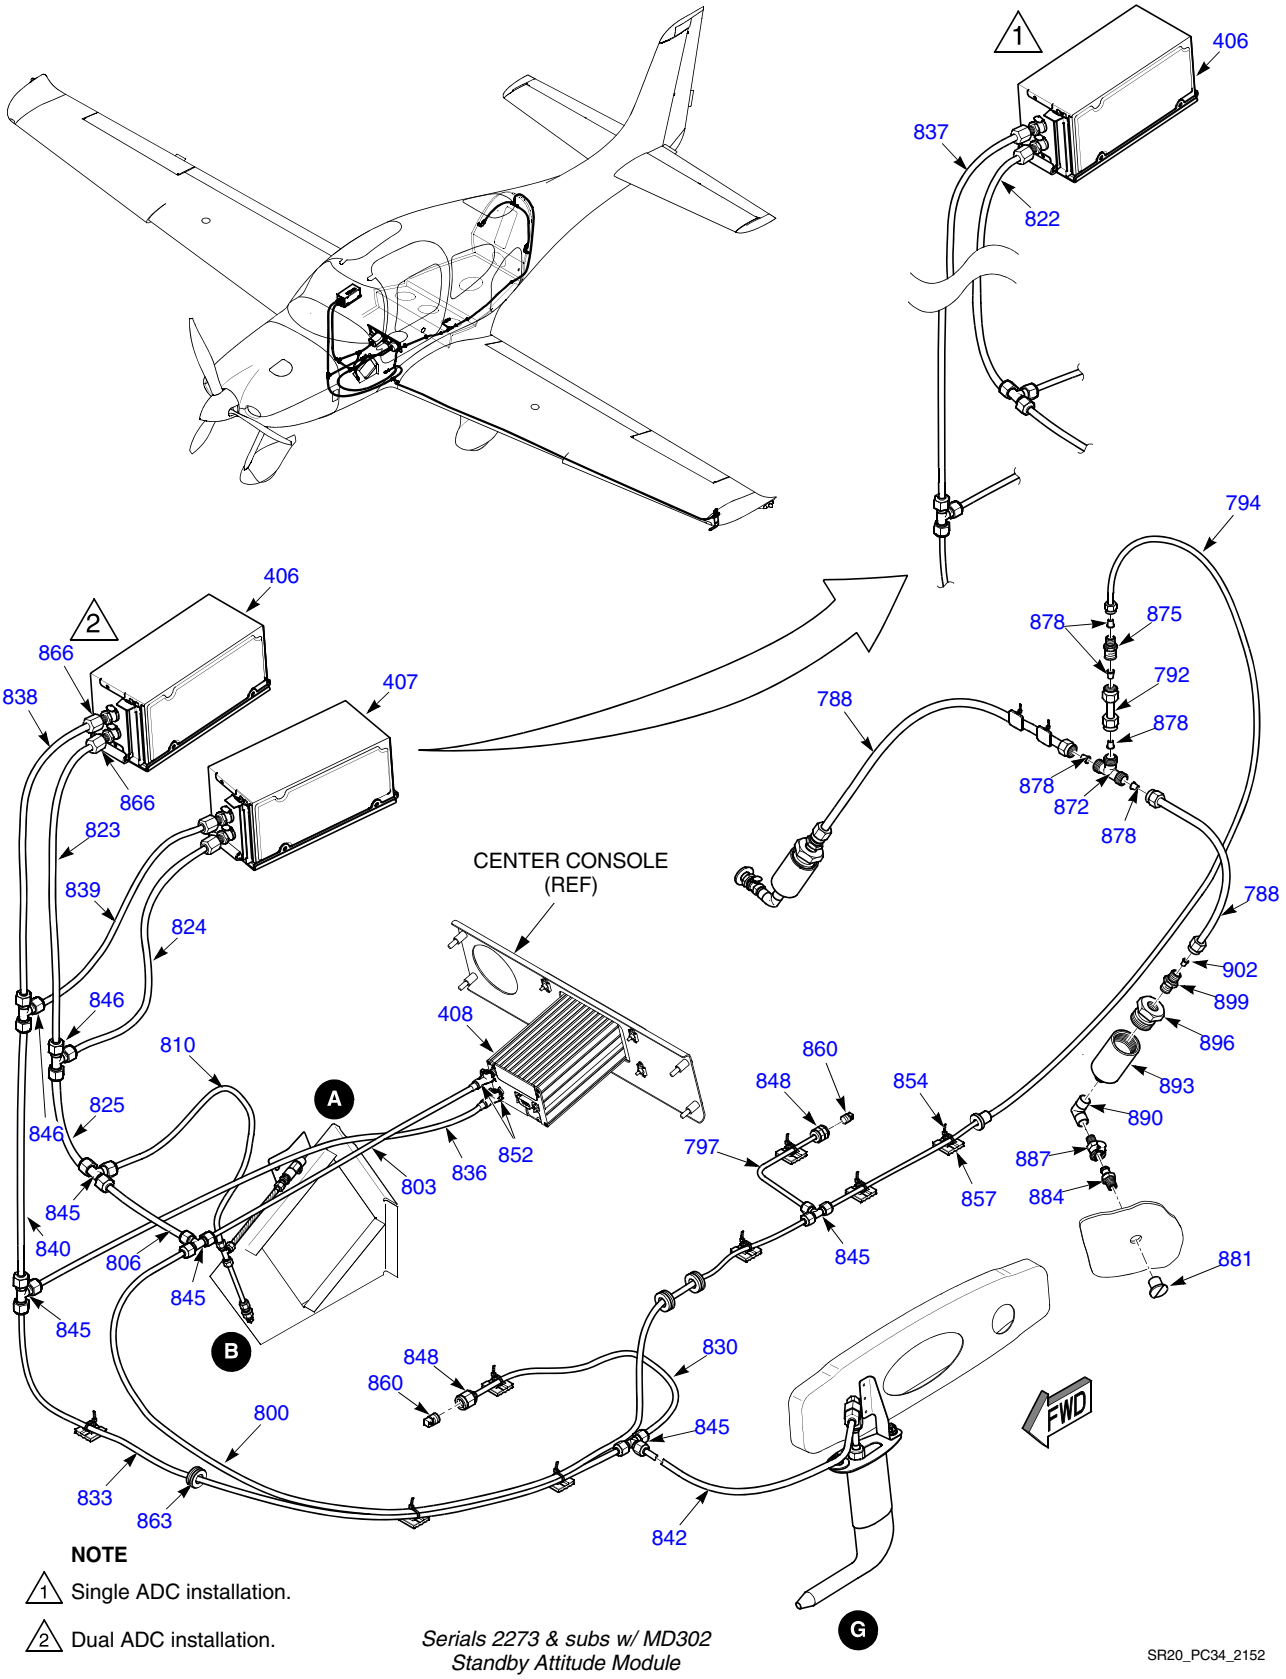
Pitot-Static System - Serials 2016 & subs w/ Perspective Avionics (5 of 8)



NOTE

1 Single ADC installation.

2 Dual ADC installation.

Serials 2273 & subs w/ MD302 Standby Attitude Module

Figure-01

Serials 2273 & subs w/ MD302 Standby Attitude Module

EFFECTIVITY:
Serials 2273 & subs w/ MD302 Standby Attitude Module

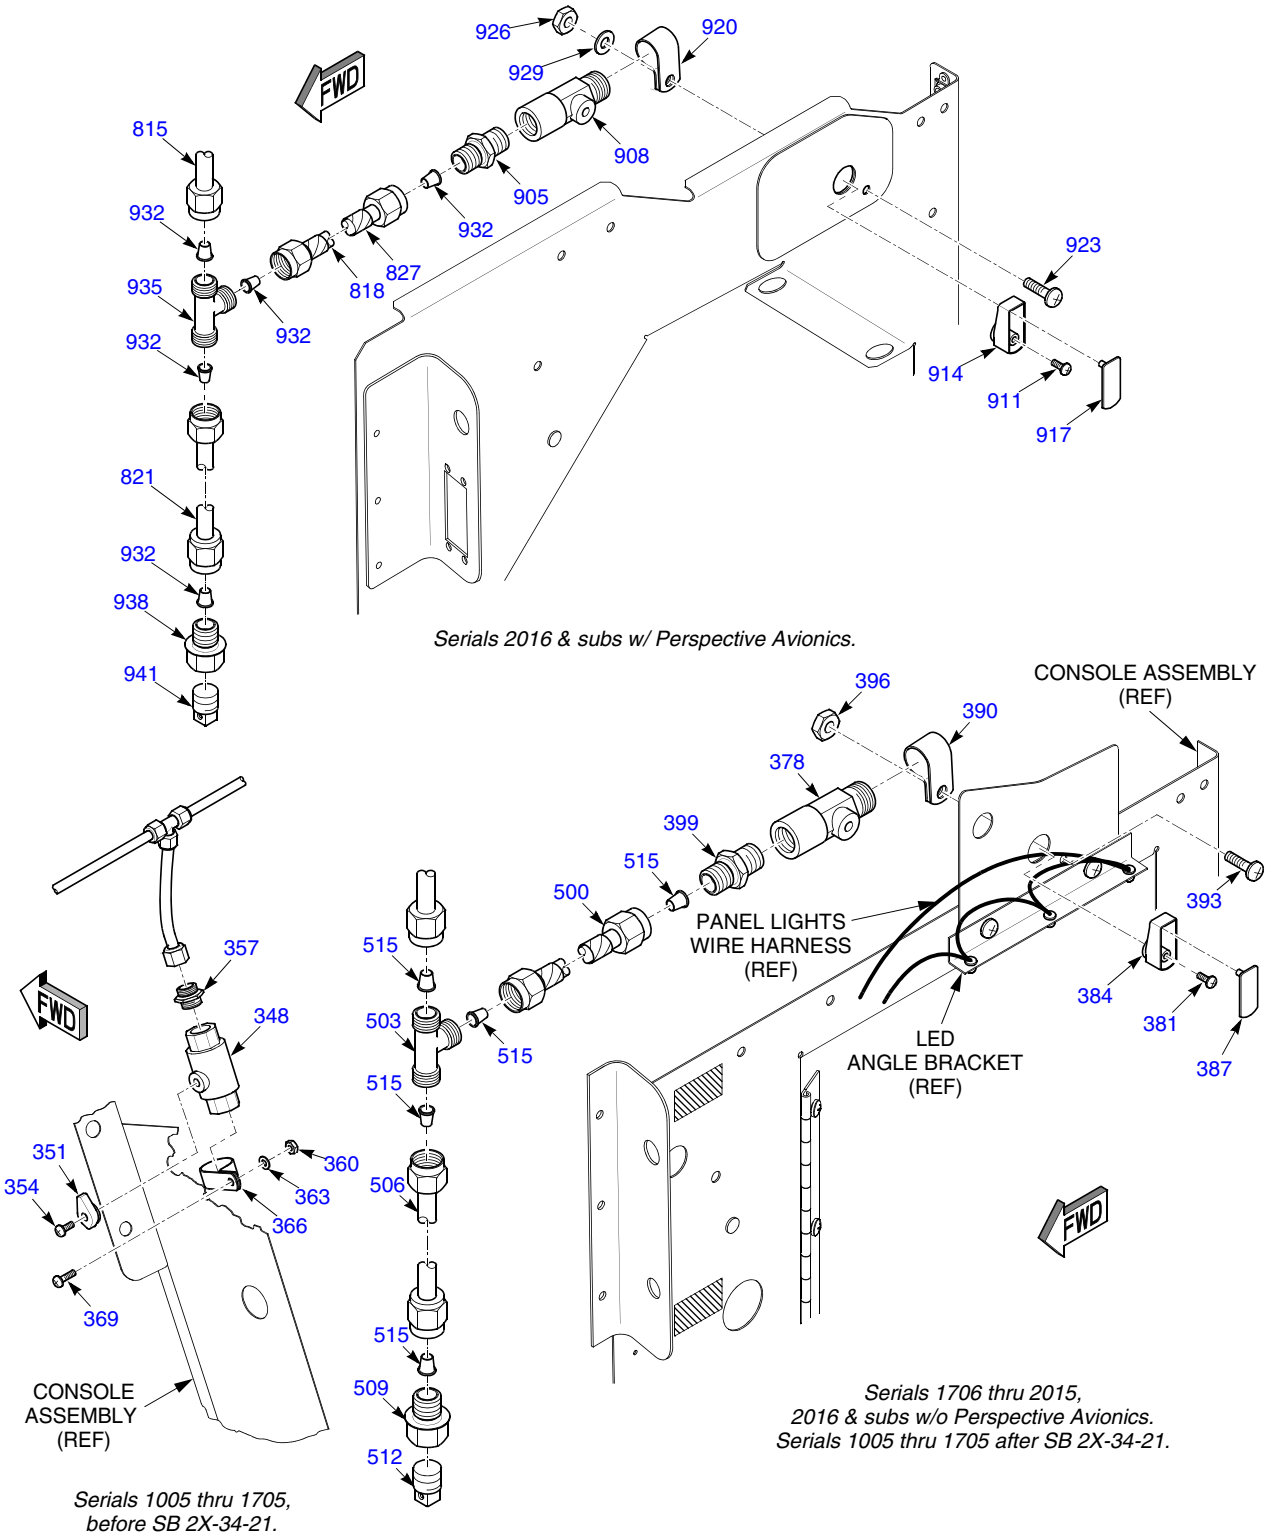


Figure-01
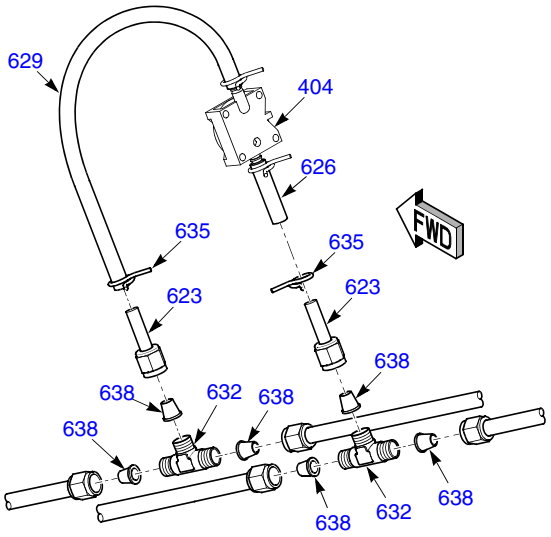
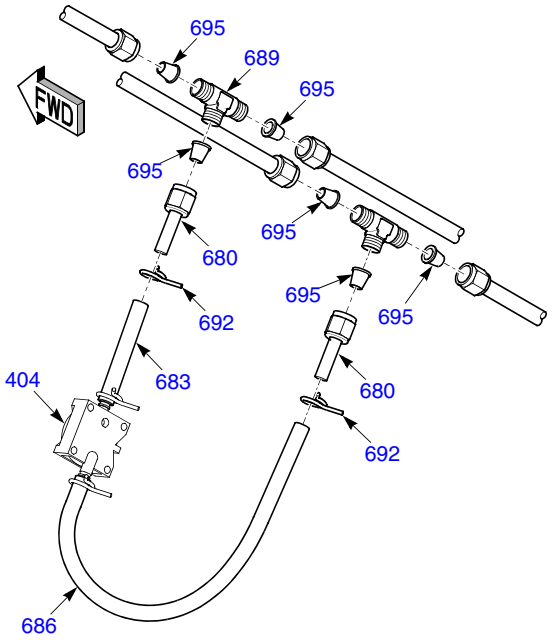
Pitot-Static System (6 of 8)



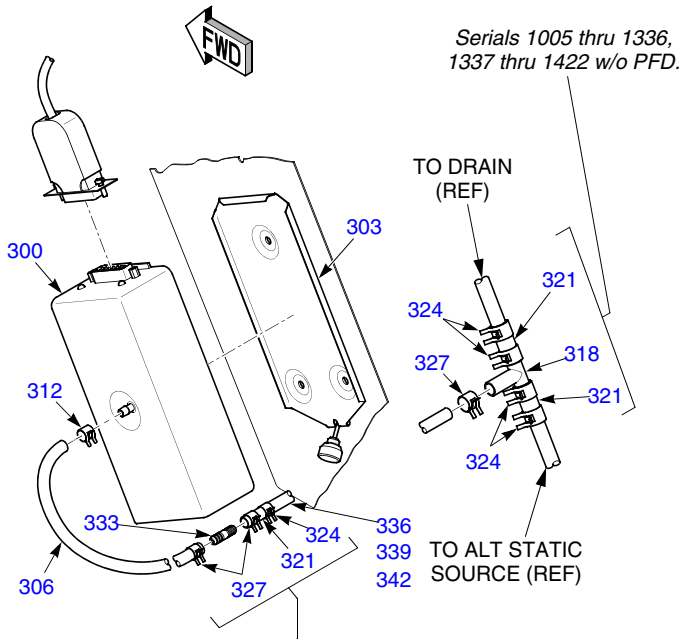
Serials 1005 thru 2015 w/ SKYWATCH,
2016 & subs w/ SKYWATCH, w/o Perspective Avionics.

DETAIL C



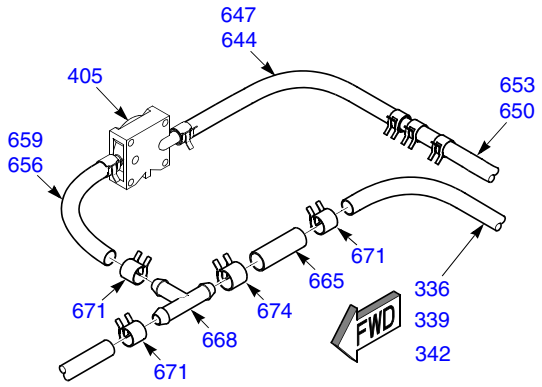
Serials 1005 thru 1632, 1634 thru 1638,
after SB 2X-31-01.

DETAIL D



Serials 1337 thru 1422 w/ PFD,
1423 thru 2015, 2016 & subs
w/o Perspective Avionics.

DETAIL B



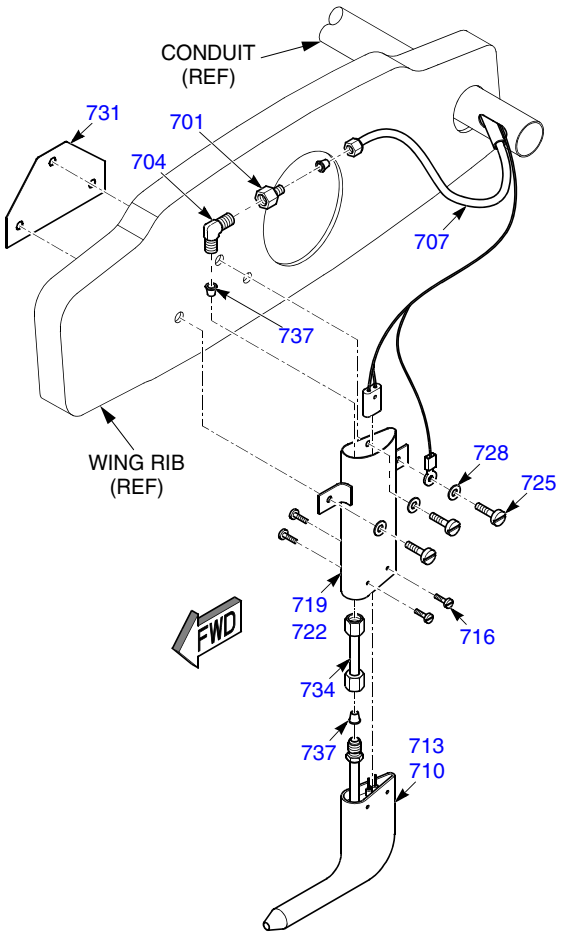
Serials 1633, 1639 thru 1877, 1879 thru 2015,
2016 & subs w/o Perspective Avionics.

DETAIL E

SR20_PC34_1056D

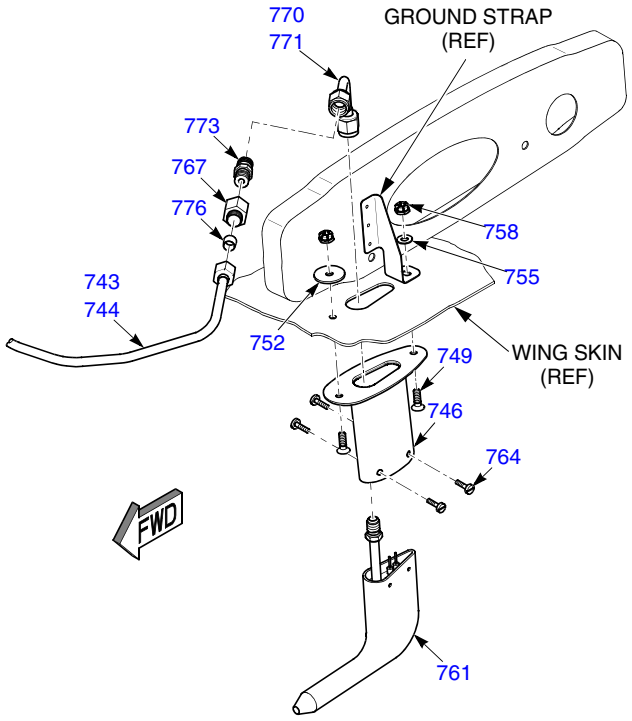
Figure-01
Pitot-Static System (7 of 8)

EFFECTIVITY:
All



Serials 1005 thru 1877, 1879 thru 1885.

DETAIL E



Serials 1878, 1886 & subs.

CHAPTER 53 - FUSELAGE

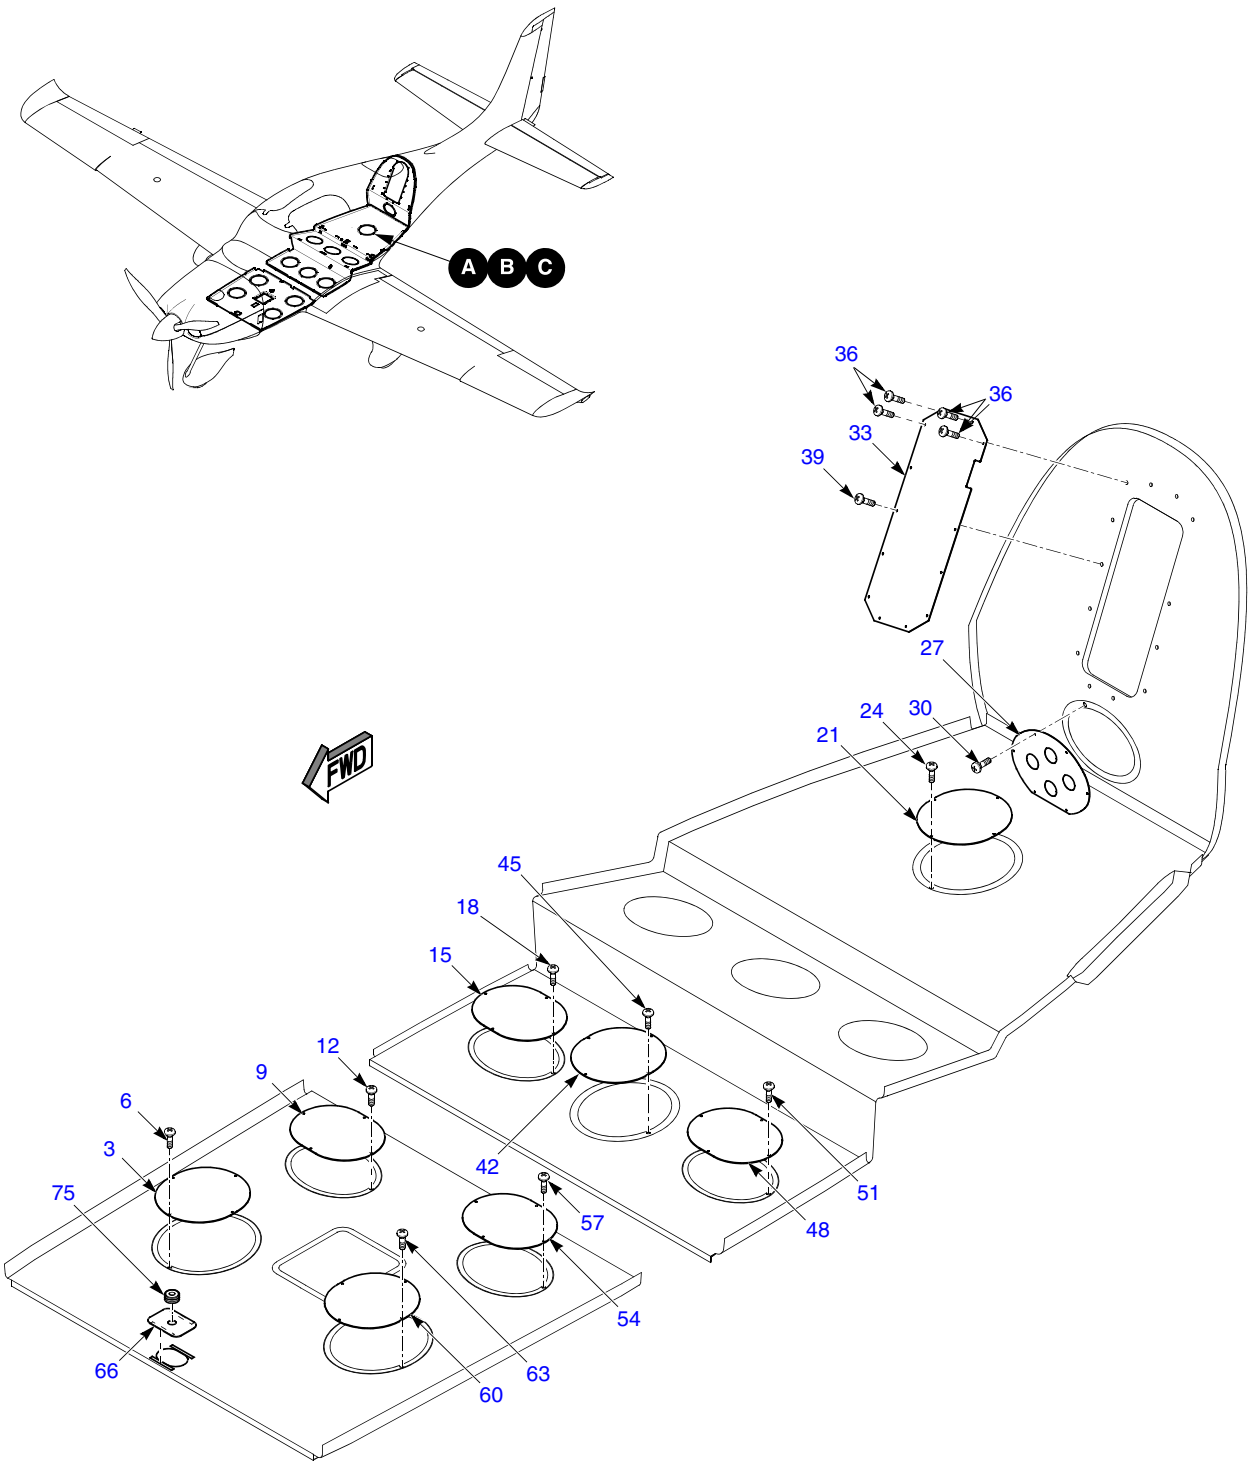
TABLE OF CONTENTS

Subject	Chap-Sect-Fig
Access Panels, Cabin - Serials 1005 thru 1422 (1 of 3)	53-20-01
Access Panels, Cabin - Serials 1423 thru 1638 (2 of 3)	53-20-01
Access Panels, Cabin - Serials 1639 & subs (3 of 3)	53-20-01
Entry Step and Handle	53-20-02
Aft Tie Down	53-20-03
Access Panels, Empennage - Serials 1005 thru 1422 (1 of 2)	53-30-01
Access Panels, Empennage - Serials 1423 & subs (2 of 2)	53-30-01
Fire Shield, Belly - Serials 1005 thru 1422 (1 of 2)	53-30-02
Fire Shield, Belly - Serials 1423 & subs (2 of 2)	53-30-02
Seat Track Attach Fittings - Serials 1005 thru 1422 (1 of 2)	53-40-01
Seat Track Attach Fittings - Serials 1423 & subs (2 of 2)	53-40-01
Footman Loop Attach Fittings - Serials 1005 & subs w/o 2+1 Rear Seat (1 of 2)	53-40-02
Footman Loop Attach Fittings - Serials 2127 & subs w/ 2+1 Rear Seat (2 of 2)	53-40-02
Cabin Door Attach Fittings - Serials 1005 thru 1422 (1 of 2)	53-40-03
Cabin Door Attach Fittings - Serials 1423 & subs (2 of 2)	53-40-03
Baggage Door Attach Fittings	53-40-04
Lower Mount Attach Fittings - Serials 1423 thru 2064 (1 of 2)	53-40-05
Lower Mount Attach Fittings - Serials 2065 & subs (2 of 2)	53-40-05
Seat Belt and Shoulder Harness Attach Fittings - Serials 1005 thru 1422 (1 of 3)	53-40-06
Seat Belt and Shoulder Harness Attach Fittings - Serials 1423 & subs w/o 2+1 Rear Seat (2 of 3)	53-40-06
Seat Belt and Harness Attach Fittings - Serials 2127 & subs w/ 2+1 Rear Seat (3 of 3)	53-40-06
Battery 1 Bracket	53-40-07
Pitch Servo Bracket - Serials 1886 & subs w/ System 55 (1 of 2)	53-40-08
Pitch Servo Bracket - Serials 2016 & subs w/ GFC 700 (2 of 2)	53-40-08
Roll Servo Bracket - Serials 2016 & subs w/ Perspective Avionics	53-40-09
Relay Mounting Plate - Serials 1005 & subs w/o Perspective (1 of 3)	53-40-10
Relay Mounting Plate - Serials 2016 & subs w/ Perspective (2 of 3)	53-40-10
Relay Mounting Plate - Serials 2016 & subs w/ System 55X/55SR and Perspective (3 of 3)	53-40-10
Wing Root Fairing - Serials 1005 thru 1885 (1 of 2)	53-50-01
Wing Root Fairing - Serials 1886 & subs (2 of 2)	53-50-01
Horizontal Stabilizer Fairing	53-50-02
Wing Walk - Serials 1005 thru 1885 (1 of 2)	53-50-03
Wing Walk - Serials 1886 thru 2302 (2 of 2)	53-50-03

Intentionally Left Blank



Serials 1005 thru 1422.
